KING WILLIAM and KING & QUEEN COUNTIES

COUNTY AGENT ANNUAL REPORT.

J. D. Hutchinson, Jr.,  
County Agent.

TABLE of CONTENTS

- I. Rural Organizations
  - 1. County Fair Associations
  - 2. Farmers Clubs
  
- II. Farm Crops
  - 1. Soybeans
  - 2. Lespedeza
  - 3. Common Japan Clover
  
- III. Fruits
  - 1. Asparagus
  - 2. Cucumbers
  
- IV. Livestock
  - 1. Dairy Cattle
  - 2. Sheep
  - 3. Hogs

## RURAL ORGANIZATIONS.

### FARMER'S CLUBS -

The three Farmer's Clubs held three meetings each for the purpose of ordering fertilizer and seeds. Seventy odd farmers were served through these clubs, and \$4725.00 worth of goods were bought at a savings of \$657.00 to the farmers.

In addition to the direct benefits derived from these clubs, they aid in holding the prices of fertilizer down, and so outsiders as well as the members profit thereby.

The agent attends these meetings and advises with the farmers as to the kinds of fertilizer to use on various crops.

### COUNTY FAIRS -

County Fairs were held in both King William and King & Queen Counties this fall. They showed considerable development over last year's fairs. The heads of the departments took more responsibility and worked better, which is one of the greatest factors in improving the exhibits in a fair.

The financial standing of both fairs is in good shape. This season net returns were higher for both, and there was over \$750.00 left in the treasuries of the organizations, after paying out \$725.00 in prizes, \$450.00 for labor, equipment and various expenses.

Plans are now being made to enlarge the King William Fair, and it is hoped that by another season this organization will be nearer perfected and better equipped.

The King & Queen Fair Association is also planning some improvements for the next year.

## FIELD CROPS.

### LEGUMES -

**Soybeans** - This crop has been our major money crop for the past few years, bringing in around \$100,000.00 per acre. This year, due to the dry weather, the yield was reduced to one third of the usual crop, and the price is not much higher.

The short bean crop has been felt by practically every farmer in King William and King & Queen and has impressed upon the farmers its real value in their farming operations.

**Leopedeum** - Several farmers seeded Korean Leopedeum and had various degrees of success due to the dry season. However, the crop was able to stand on all the demonstration plots, and another year should prove its value in this section.

**Common Japan Clover** - One demonstration was conducted along beside a Korean Leopedeum demonstration. It seemed to show more resistance to the dry weather, and would have made most excellent pasture, or a very fair cutting of hay. This crop was also allowed to go back to the soil.

### TRUCKS.

**Asparagus** - Ten acres of asparagus was set in the vicinity of West Point, by twenty-two farmers; the plots varying from one eighth of an acre to two acres.

Mr. T. C. Johnson from the Virginia Experiment Station and Mr. Becker from V. F. I., assisted in instructing the farmers in methods of preparing the land, fertilization and planting. Mr. Becker visited a number of the growers with the agent. Mr. Johnson instructed them in a meeting in West Point. He also sent a man from the station to put on a working demonstration for the growers on Mr. John Soodens farm.

The agent has visited the growers and finds that the plants are well and the farmer's are using the methods of cultivation prescribed by Mr. Johnson. (The same having been furnished the farmers in Kings Creek area).

This is a very interesting and promising project, and one that will give results if not so carried to good advantage.

## TRUCKS (Continued)

### Cucumbers and Jerkins -

A market was secured for cucumber growers of the Couthorneville neighborhood. Twenty-seven acres were planted according to Mr. Neeser's directions. The yields would have been good, but for the dry season which came just as the crop came into bearing. In spite of the bad season, \$1400.00 was paid to the growers. This section of the county is very poor, and though returns were not great, the rainy cash helped the growers considerably.

One fourth of a acre of Cherkins brought a grosser \$40.00.

These grossers were also furnished with printed instructions which were followed by most of them. Dusting for insect pests had never been practiced before. This year about 50% resorted to this method of control with good results.

The cucumbers were trucked to Richmond this year. The Pin Henry Pickling Company plans to put a brinary within easy reach of the farmers next season.

## LIVESTOCK.

### Dairy Cattle -

This branch of the work has made some real progress this year and should grow more rapidly in the future.

A branch of the Matthews County Creamery has been opened in West Point, which furnishes a ready market for sour cream.

In addition to the receiving station, a cream route has been established which runs up through King William and back through King & Queen - a distance of 50 miles. 25 farmers are shipping cream at present, and a total of about 50 to 100 gallons per week is being collected. This market was started in September, and should be going in good order by spring.

Mr. Buchanan and Mr. Pegram assisted in lining up the work. Mr. Buchanan attended 400 farmers meetings in West Point and gave the farmers very valuable instructions along the lines of dairying.

Mr. Turner, Agricultural Agent for the Southern Railroad also attended a farmers meeting in West Point and made a helpful talk along the lines of dairying in the South. He pointed out the natural advantages that this section has over other sections that are already in the business and making fair profits.

LIVESTOCK (Continued)

Dairy Cattle (continued)

All the cattle in King William and King & Queen Counties were tested for T.B. within the past few months; and are now included in the T.B. free areas.

Last spring, seven head of Guernseys females were sold at an average of more than \$250.00 each. This sale created new interest, consequently 12 purebred Guernseys were placed.

Two purebred Holstein bulls and 1 purebred Jersey were placed also. Seventeen farmers were assisted in dehorning their cattle.

Sheep -

Three farmers were assisted in giving the stomach worm treatment to their sheep. This treatment has proven well worth while, and would be of lasting benefit if the farmers could be induced to give the treatment themselves, and give it frequently during the summer months.

one registered Hampshire ram was placed

Hogs -

Three purebred boars and four purebred females were placed.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Long Beach and King & Queen  
Report of J. D. Hutchinson, Jr. County Carroll Agent  
From Dec. 1, 1927 to Dec. 1, 1928, 1928

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

COUNTY AGENT ANNUAL REPORT.

Approved:

Date \_\_\_\_\_ *John W. Nelson, Supervisor*

Date \_\_\_\_\_ *State Extension Director*

## SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the entire total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value for the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. The report to the Washington office should be sent through the State extension office.

### NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, factual, and where possible, reinforced with simple data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, line prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented.

#### SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

1. Cover and title page.
2. Table of contents.
- III. Status of county extension organization.
  - (1) Form of organization—changes and developments.
  - (2) Function of local groups, associations, or project leaders in developing the program of work.
  - (3) General policies regarding relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
  - (1) Projects established and methods used in developing program of work.
  - (2) Project activities and results.
 

<ol style="list-style-type: none"> <li>(a) Soil</li> <li>(b) Soil crops</li> <li>(c) Cattle</li> <li>(d) Horse raising</li> <li>(e) Improvement of farm grounds</li> </ol>	}	Including diseases and insects.
<ol style="list-style-type: none"> <li>(f) Poultry</li> <li>(g) Swine</li> <li>(h) Rabbits, guinea pigs, and birds</li> <li>(i) Animal husbandry</li> <li>(j) Dairy husbandry</li> <li>(k) Beekeeping</li> <li>(l) Poultry husbandry</li> <li>(m) General practice</li> </ol>	}	Including diseases and insects.

## SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT—Continued.

## IV. Program of work, etc.—Continued.

## (2) Project activities and results—Continued.

- (a) Agricultural engineering.
- (b) Agricultural engineering—home.
- (c) Agricultural extension, including farm management and marketing.
- (d) Home marketing.
- (e) Foods.
- (f) Nutrition.
- (g) Clothing.
- (h) Home management.
- (i) Home furnishings.
- (j) Home health and sanitation.
- (k) Community activities.
- (l) Miscellaneous.

- V. Outlook and recommendations, including suggestive program of work for next year.
- VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

## STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of this report, space is provided in add further data if desired. The statistical summary will grow naturally out of the field and office records.

## DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extensive work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COUNTY, for the purpose of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in administering some phase of the local program of extension work.
6. A DEMONSTRATION is an attempt designed to show the practical application of an established fact. Demonstrations are subdivided in this report into two kinds, method demonstrations and result demonstrations.
  - A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Examples: Demonstration of sowing, sifting of grain, weeding, and cutting of poultry.
  - A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child feeding, tree-planting, and soil-and-plant-management demonstrations.
7. A REPRESENTATIVE is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERSHIP LIST should include those who have satisfactorily fulfilled the work outlined for the current year.
9. REPRESENTATIVE MEMBERS is a meeting held to give a method demonstration or to show, report, or further a result demonstration.
10. A WARNING SERVICE is a meeting at which project leaders or local leaders are invited to carry on extension activities in their respective communities.
11. AN AGENT is an extension worker in a field or well by a farmer or other person seeking agricultural or home economic information, as a result of which some definite practice or information is given.
12. A WORK VISIT is a call on a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A WORK VISIT is a call on a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. SHOWS OR AGENTS should include those given by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
15. SHOWS OR AGENTS should include all days spent in official duty other than those spent in office.
16. WARNING SERVICES should include all single days spent in official business.

4

**DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.**

17. A **WINTER COURSE** is one of a series of meetings of one to two days' duration, arranged by a central State Institute Institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. An **EXTENSION JOB SURVEYAL SCHOOL** is an itinerant school usually of two to six days' duration where practical farm systematic instruction is given to persons not resident at the college. An extension school course differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **RECORDS** consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARE ON NEW PRACTICE COURSES** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, raising of fruits and vegetables, use of balanced rations, and hay making.

**GENERAL ACTIVITIES**

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report.

<i>J. D. Hutchinson, Jr.</i> <small>(Name)</small>	<i>County Agent</i> <small>(Title)</small>	<i>12</i> <small>(Months of service this year)</small>
_____	_____	_____
_____	_____	_____

2. County association, if any, fostering extension work. 11

(a) Name \_\_\_\_\_

(b) Number of members \_\_\_\_\_

3. Number of communities in county where extension work should be conducted. 15

4. Number of above communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 15

5. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program with—

(a) Families \_\_\_\_\_

(b) Adults 30

## FARM-DEMONSTRATION WORK.

### SOILS.

Report only this year's extension activities and results that are supported by records.

41. Number of method demonstrations given. (See definition 6, page 2.)	3	43
42. Number of result demonstrations started or under way. (See definition 6, page 2.)	27	46
43. Number of result demonstrations completed or carried through the year.	18	47
44. Number of acres involved in these completed demonstrations.	56	49
45. Number of farms adopting improved practices in the use of commercial fertilizer this year.	17	49
46. Tons involved in spreading manure.	27	50
47. Number of farms taking better care of farm manure this year.	3	51
48. Number of farms using lime or limestone for the first time.	3	52
49. Tons of lime or limestone so used.	4	53
50. Number of farms plowing under cover or other green manure crops for the first time.	5	54
51. Acres of cover and green manure crops so plowed under.	8	55
52. Number of farms adopting other improved soil practices this year. (Specify below.)	39	55
53. Total number of different farms adopting improved practices, whether or not the soils work reported on this page. (Include questions 47, 48, 49, 50, 51, and 52.) See definition 6, page 2.	58	56

A very definite plan for soil improvement was furnished for the Department and Chamber growers. Most of these crops require dry periods and for the best results and as a consequence heavy applications of fertilizer were made which were most improved.

Most of the above demonstrations were conducted with the cucumber and asparagus growers.

The extremely dry season made it impossible to get very striking results. However the residual fertilizer will show up next season.

8  
CEREALS<sup>1</sup>

Report only this year's extension activities and results that are supported by records.

Have 2 acres under 10000 *Lupinus* for the first time and being high. The seedling was 6' and the seed was too much planted. However, in spite of the bad season and the bad weather, results were satisfactory. The demonstration added 10 acres in Common Japan. Since the crop was allowed to go back to the field and it would have been good pasture.

69. Increased yield per acre on demonstrations	bu.	bu.	bu. <sup>2</sup>	bu.	00
70. Number of junior clubs <sup>3</sup>					00
71. Number of members enrolled	(1) Boys	(2) Girls			00
72. Number of members completing work	(1) Boys	(2) Girls			00
73. Number of acres grown by junior club members completing					00
74. Total yield of crops grown by junior club members	bu.	bu.	bu. <sup>2</sup>	bu.	00
75. Number of farms planting improved seed for the first time					00
76. Number of farms planting good varieties for the first time					00
77. Number of farms testing seed for blight for the first time					00
78. Number of farms spraying or dusting for insects and weeds for the first time					00
79. Number of farms adopting other improved practices for the first time (specify below)					00
80. Total number of different farms adopting improved practices relative to potatoes, cotton, tobacco, and other special crops (specifying on table page) (include practices 65, 66, 67, 68, 69, 70, 71 and 72) see explanation					00

<sup>1</sup> Report value in dollars.  
<sup>2</sup> Report yield in bushels if applicable.

## HORTICULTURE.

Report only this year's extension activities and results that are supported by records.

Item	1934		1935		1936		Total
	Tree fruits	Small fruit	Vegetables	Number of people and acreage	Days of work	Number of trees	
100. Number of orchard demonstrations given							100
101. Number of adult orchard demonstrations started or under way		27		16	5		100
102. Number of adult orchard demonstrations completed or carried through the year		27					100
103. Acres involved in these completed demonstrations		2.5			XXX	XXX	100
104. Increased yield per acre on demonstrations	bu.	qts.	bu.	bu.	XXX	XXX	100
105. Number of justice apples				2			100
106. Number of mandarin oranges	(1) grapes						100
	(2) citrus						100
107. Number of mandarin oranges	(1) grapes						100
	(2) citrus						100
108. Number of acres grown by justice apple nurseries completed				2/4		XXX	100
109. Total yield of orange grown by justice apple nurseries	bu.	qts.	bu.	bu.	bu.	XXX	100
110. Number of trees planted in nurseries							100
111. Number of trees growing for the first time							100
112. Number of trees involved in propagating operations	some	some	some	XXX	XXX	XXX	100
113. Number of trees sprouting or otherwise growing for the first time							100
114. Number of trees involved in propagating operations	some	some	some	some	XXX	XXX	100
115. Number of trees exhibiting yellow leaf disease (specimens for the first time)							100
116. Number of trees exhibiting yellow leaf disease (specimens for the first time)							100

37

Market for oranges in the Southland with  
 neighbors some of  
 the action suffered  
 on a scale of that year  
 which was a matter  
 Sunday. These growers  
 supported and agreed  
 process in the Southland with  
 and 22 growers signed up  
 nearly from dry weather had  
 own \$1000? also paid the grower  
 at Copenague on the West Point  
 the way about good growth

## FORESTRY.

Report only this year's extension activities and results that are supported by records.

126. Number of youth demonstrations given	_____	126
127. Number of youth demonstrations started or under way	_____	127
128. Number of youth demonstrations completed or started through the year	_____	128
129. Number of acres included in these completed demonstrations	_____	129
130. Number of junior clubs	_____	130
131. Number of persons enrolled	(a) Boys _____	131
	(b) Girls _____	
132. Number of persons completing	(a) Boys _____	132
	(b) Girls _____	
133. Number of acres handled by junior club members	_____	133
134. Number of forest or woodland plantations established this year	_____	134
135. Acres handled in planting operations	_____	135
136. Number of acres planted in forest management this year	_____	136
137. Acres handled in planting operations	_____	137
138. Number of acres planting windbreaks this year	_____	138
139. Number of acres attempting to control white-pine blight rot for first time	_____	139
140. Number of acres handled in planting operations	_____	140
141. Number of acres adopting other improved practices for the first time. (Specify below.)	_____	141
142. Total number of acres adopting improved practices given in the forestry work reported on this page. (Sum questions 133, 134, 136, 138, 139, and 141.)	_____	142

## MOMENTS AND MISCELLANEOUS INSECT AND ANIMAL PESTS

Report only this year's extending activities and results that are supported by records.

Item	MOMENTS			
	(a) Number	(b) Total number of acres	(c) Total number of acres	(d) Total number of acres
143. Number of youth demonstrations given	_____	_____	_____	_____
144. Number of youth demonstrations started or under way	_____	_____	_____	_____
145. Number of youth demonstrations completed or started through the year	_____	_____	1.5	1.5
146. Number of acres of these completed demonstrations	_____	_____	2	2.5
147. Total number of acres participating in control operations this year	_____	_____	_____	_____
148. Number of acres planted in planting operations	_____	_____	_____	_____

1. This report is to be filled out by the foreman or other person in charge of the work reported on this page. It should be filled out in ink or blue ink on a separate sheet of unlined paper and attached to the back of this report.

## LIVESTOCK.

Report show this year's production activities and results that are supported by records.

Item.	1944						1943
	(1) Dairy cattle	(2) Beef cattle	(3) Swine	(4) Sheep	(5) Poultry	(6) Other <sup>1</sup>	
128. Number of method demonstrated given					18		128
129. Number of adult male demonstrated started on under way	22				19		129
130. Number of adult male demonstrated completed or started through the year	12				12		130
141. Number of animals involved in these completed demonstrations	78				1142		141
142. Total profit or saving on demonstrations							142
143. Number of junior clubs <sup>2</sup>							143
144. Number of members enrolled	(1) Boys						144
	(2) Girls						
145. Number of members enrolling	(1) Boys						145

## AGRICULTURAL ECONOMICS—Continued.

Report only this year's extension activities and results that are supported by records.

205. List below this year's results in connection with the cooperative-marketing associations in the county previously organized and with which the extension service associated or advised.

200	201	Supplier and products handled.	Apples produced.		Peaches sold.	
			200	201	200	201
Bourington	27	Fatchner	8,722	8,242 <sup>00</sup>		
Bearshirts	28	"	18,220	2,222 <sup>00</sup>	6,222 <sup>00</sup>	4,777 <sup>00</sup>
Swind Hall	23	"	12,220	172 <sup>00</sup>		
				8		
Total				26,742 <sup>00</sup>		4,777 <sup>00</sup>

206. Total number of different farms adopting improved marketing practices (include entries for questions 204 (1) or 205 (1) less duplications plus other farms not in cooperative associations) 7 206

## COMMUNITY ACTIVITIES AND MISCELLANEOUS.

Report only this year's extension activities and results that are supported by records.

Use this space to include work on any other agricultural project not included in the preceding pages, such as bee-keeping, and other work, i. e., any other information that can be reported statistically and that will help to give a complete account of the year's work.

207	208	209	210		211
			Boys	Girls	
207. Number of method demonstrations given					207
208. Number of adult youth demonstrations started in similar way					208
209. Number of youth demonstrations completed or carried through the year					209
210. Number of units in these completed demonstrations					210
211. Number of junior clubs <sup>a</sup>					211
212. Number of members enrolled	(1) Boys				212
	(2) Girls				
213. Number of members completing	(1) Boys				213
	(2) Girls				
214. Number of units involved in junior club work completed					214
215. Total number of different farms adopting improved practices relative to the miscellaneous work reported on this page					215

(Use space below to include other important data relating to miscellaneous work.)

<sup>a</sup> Junior clubs are those in which the members are grouped in a regular club which are based on the question that should report on significant and complete.

## HOME-DEMONSTRATION WORK.

## FOODS.

Report only this year's extension activities and results that are supported by records.  
 same subtraction.

215. Number of project clubs or groups	(a) Women	215
	(b) Juniors	
216. Number of persons enrolled in food preparation	(a) Women	216
	(b) Girls	
	(c) Boys	
217. Number of persons completing	(a) Women	217
	(b) Girls	
	(c) Boys	
218. Number of printed demonstrations given. (See definition 6, page 2.)		218
219. Number of printed demonstrations started or under way. (See definition 6, page 2.)	(a) Women	219
	(b) Girls	
	(c) Boys	
220. Number of public demonstrations completed or carried through the year	(a) Women	220
	(b) Girls	
	(c) Boys	
221. Number of households adopting improved practices in bread making this year	(a) Women	221
	(b) Girls	
	(c) Boys	
222. Number of households adopting improved practices in meat cookery this year	(a) Women	222
	(b) Girls	
	(c) Boys	
223. Number of households adopting improved practices in vegetable cookery this year	(a) Women	223
	(b) Girls	
	(c) Boys	
224. Number of households adopting improved practices in preparation of dairy-product dishes this year	(a) Women	224
	(b) Girls	
	(c) Boys	
225. Number of households adopting improved practices in food preparation and service this year	(a) Women	225
	(b) Girls	
	(c) Boys	
226. Number of homes budgeting the family food supply for the first time		226
227. Total number of different homes adopting improved practices relative to the food-preparation work reported on this page. (Check circles for questions 226, 227, 228, 229, 230, 231, and 228. See instructions.)		227

(Use space below to include other important data relating to food preparation.)

## FOODS—Continued.

Report only this year's extension activities and results that are supported by records from registrations.

226. Number of project clubs or groups	(a) Women	226
	(b) Juniors	
227. Number of members enrolled in food preservation	(a) Women	227
	(b) Girls	
	(c) Boys	
228. Number of members completed	(a) Women	228
	(b) Girls	
	(c) Boys	
229. Number of method demonstrations given		229
230. Number of meals demonstrations started or under way	(a) Women	230
	(b) Girls	
	(c) Boys	
231. Number of meals demonstrations completed or carried through the year	(a) Women	231
	(b) Girls	
	(c) Boys	
232. Number of individuals adopting improved practices in preserving fruits and vegetables this year	(a) Women	232
	(b) Girls	
	(c) Boys	
233. Number of individuals adopting improved practices in preserving meats and fish this year	(a) Women	233
	(b) Girls	
	(c) Boys	
234. Number of homes providing larger food storage for the fall time		234
235. Total number of different homes adopting improved practices relative to the food preservation work reported on this page		235
236. List below amount of food preserved by club members completing:		236

Kind of food	Quantity	In		
		Women	Girls	Boys
(a) Fruits and vegetables canned	quarts			
(b) Meats and fish canned	quarts			
(c) Jelly and preserves made	quarts			
(d) Fruit juices made	quarts			
(e) Pickles made	quarts			
(f) Fruits and vegetables dried	pounds*			
(g) Meats cured	pounds†			

(\*Use space below to indicate other important data relating to food preservation.)

## NUTRITION.

Report only this year's extension activities and results that are supported by records.

239. Number of project clubs or groups	(a) Women	} 239
	(b) Juniors	
240. Number of members enrolled in nutrition	(a) Women	} 240
	(b) Girls	
	(c) Boys	
241. Number of members completing	(a) Women	} 241
	(b) Girls	
	(c) Boys	
242. Number of method demonstrations given		242
243. Number of result demonstrations started or under way	(a) Women	} 243
	(b) Girls	
	(c) Boys	
244. Number of result demonstrations completed or carried through the year	(a) Women	} 244
	(b) Girls	
	(c) Boys	
245. Number of individuals improving family meals according to approved methods for the first time	(a) Women	} 245
	(b) Girls	
	(c) Boys	
246. Number of individuals preparing better school lunches for the first time	(a) Women	} 246
	(b) Girls	
	(c) Boys	
247. Number of schools induced to serve a hot dish or school lunch for the first time		247
248. Number of children benefited in preschooling question		248
249. Number of homes employing and improved practices in child feeding for the first time		249
250. Number of children benefited in preschooling question		250
251. Total number of different homes adopting improved practices relative to the nutrition work reported on this page		251

[Use space below to include other important data relating to nutrition.]

## CLOTHING.

Report only this year's economic activities and results that are supported by records.

202. Number of project clubs or groups.	(a) Women	202
	(b) Girls	
203. Number of members certified in clothing work.	(a) Women	203
	(b) Girls	
204. Number of members completing.	(a) Women	204
	(b) Girls	
205. Number of method demonstrations given.	(a) None	205
206. Number of small demonstrations started or under way.	(a) Women	206
	(b) Girls	
	(c) None	
207. Number of small demonstrations completed or carried through the year.	(a) Women	207
	(b) Girls	
	(c) None	
208. Number of individuals adopting improved practices in selection and construction.	(a) Women	208
	(b) Girls	
	(c) None	
209. Number of individuals adopting improved practices in construction and remodeling.	(a) Women	209
	(b) Girls	
	(c) None	
210. Number of individuals adopting improved practices in millinery.	(a) Women	210
	(b) Girls	
211. Number of individuals adopting improved practices in costume designing.	(a) Women	211
	(b) Girls	
212. Number of individuals adopting improved practices in infant wardrobe planning.	(a) Women	212
	(b) Girls	
213. Number of individuals adopting improved practices in children's wardrobe planning.	(a) Women	213
	(b) Girls	
214. Number of individuals adopting improved practices in adult wardrobe planning.	(a) Women	214
	(b) Girls	
215. Total number of different homes adopting improved practices relative to the clothing work reported on this page.	(a) None	215
216. Number of dress forms made this year by.	(a) Women	216
	(b) Girls	
217. Number of dress and suit made made this year by.	(a) Women	217
	(b) Girls	
218. Number of undergarments made this year by.	(a) Women	218
	(b) Girls	
219. Number of hats made this year by.	(a) Women	219
	(b) Girls	

(Use space below to include other important facts relating to clothing.)

## HOME MANAGEMENT.

Report only this year's extension activities and results that are supported by receipts.
