BLACKSBURG, VIRGINIA

Dear Graduates, Families, and Friends,

The Class of 2022 is special for two important reasons. One is the resilience the graduates have displayed in persisting to complete their degree requirements despite the most unexpected impacts of the COVID-19 pandemic. When they started at Virginia Tech, no one anticipated the disruption and uncertainty that would ensue during their studies here. In concert with the university and college administration, and indeed, with the rest of the world, they learned to adjust, adapt, and accomplish. These are qualities that will serve them well as they pursue careers and advanced studies. Along with the knowledge, professional practice, leadership, and service experiences they have gained during their time at Virginia Tech, our graduates will take their amazing spirit into their next adventures.

The second reason the Class of 2022 is especially important is that their graduation takes place during Virginia Tech's Sesquicentennial celebration. For 150 years, this university has proudly educated and graduated leaders who serve society. Alumni of the College of Architecture and Urban Studies contribute significantly to making the world more beautiful, more functional for health and well-being, and more just and sustainable through programs in visual arts, policy and planning, industrial and interior design, construction management, and architecture and landscape architecture. They embody the university motto, *Ut Prosim*, by assuming leadership for developing solutions to environmental and urban problems or applying new technologies to examine culture and improve building practices. They question unidimensional thinking and offer fresh perspectives for addressing complex challenges. In short, they extend the university's mission into the future, continuing the 150-year-old trend of expanding personal growth and opportunity, advancing social and community development, fostering economic competitiveness, and improving the quality of life.

With every good wish for continued success,

Rosemary Bleszner, PhD
Alumni Distinguished Professor and Interim Dean

PROGRAM

Processional

Welcome

Commencement Speaker

Kevin Jones, CEO and Creative Director, Joba Studio

Doctoral Candidates

Master's Degree Candidates

Bachelor's Degree Candidates

DOCTORAL DEGREES

Doctor of Philosophy in
Architecture and Design Research

Doctor of Philosophy in
Environmental Design and Planning

Doctor of Philosophy in Planning,
Governance, and Globalization

Doctor of Philosophy in Public
Administration and Public Affairs

MASTER'S DEGREES

Master of Architecture

Master of Science in Architecture

Master of Landscape Architecture

Master of Science in Building Construction
Science and Management

Master of Public Administration
