

## **Acknowledgements**

First, I would like to thank my advisors, Dr. Raymond Plaut and Dr. George Filz, for giving me the opportunity to work on this project. I sincerely appreciate all of their advice, support, and assistance. I would also like to thank Dr. Thomas Cousins for his advice and for being a member on my committee.

I want to acknowledge financial support from the National Science Foundation under Grant No. CMS-9807335. I want to thank two graduate students, Matt Moler and Meeok Kim, for providing assistance and input during the project.

Last but not least, I would also like to thank my beautiful wife and newborn son for their support, patience, and encouragement.
