

# TABLE OF TABLES

## Chapter 3

Table 3-1: Graded parameters separating calls within a call category

## Chapter 4

Table 4-1: Call repertoires for all individuals in this study

Table 4-1: Footnotes

Table 4-2: Regionally exclusive calls

Table 4-3: Comparison of repertoire size between individuals

Description of figure 4-4 - figure 4-6

Table 4-4: Duet couplets produced by western pairs

Table 4-5: Duet complexes produced by western pairs

Table 4-6: Duet couplets and complexes produced by eastern pairs

## Chapter 5

Table 5-1: Call substitutions

Table 5-2: Individual-specific calls

Table 5-3: Comparison among males: pair-wise comparisons of frequency content for six variables

Table 5-4: Comparison among females: pair-wise comparisons of frequency content for six variables

Table 5-5: Summary of variables exhibiting differences between individuals

Table 5-6: Separation of male HP01 calls using LPC coefficients

Table 5-7: Separation of female HP01 calls using LPC coefficients
