VITA

Xianguo Chen was born in Hunan province, China, and graduated from Guiyang No. 3 High School in 1981. He attended the Central-South University of Technology in 1981 and graduated with a B.S. degree in Mining and Mineral Engineering in 1985, then he started his graduate study in the Department of Mineral Engineering at Beijing Graduate School of Wuhan University of Technology and received his Master degree in July 1988. After working as a research engineer in China national Non-Metallic Minerals Industry Corporation for 5 years, he entered Virginia Polytechnic Institute & State University. He is a student member of the society of Mining Engineers of AIME.
