ASME requests that authors/copyright owners assign copyright to ASME in order for a conference or journal paper to be published by ASME. Authors exempt from this request are direct employees of the U.S. Government, whereby papers are not subject to copyright protection in the U.S., or non-U.S. government employees, whose governments hold the copyright to the paper. Otherwise, the author/ copyright owner(s) of the Paper should sign this form as instructed below. Please refer to the section below "Who Should Sign" and also to ASME's [FAQ page](#) for more information regarding copyright ownership and the copyright process.

WHO SHOULD SIGN

Only the copyright owner(s) of the Paper, or an authorized representative, can sign this form. If one of the following applies, you may not own the copyright to the paper, or you may not be authorized to sign this agreement, and you may need to have the appropriate copyright owner(s) or organization representative sign this Agreement:

- (1) You created the Paper within the scope of your employment, and your employer is the copyright owner
- (2) You created the Paper under an independent contractor agreement**
- (3) You received a grant that funded your Paper.

Please review your company policies regarding copyright, and if you are not authorized to sign this agreement, please forward to the appropriate organization representative. Please review applicable company, institutional, and grant policies and your employment/independent contractor agreement to determine who holds the rights to your Paper. For more information, please refer to the [FAQs](#).

****Note to U.S. Government Contractors:** If you created the Paper under contract with the U.S. Government, e.g., U.S. Government labs, the paper may be subject to copyright, and you or your employer may own the copyright. Please review your company/institutional policies and your contractor agreement. Your Paper may also require a footer acknowledging contract information and also the following statement:

"The United States Government retains, and by accepting the article for publication, the publisher acknowledges that the United States Government retains, a non-exclusive, paid-up, irrevocable, worldwide license to publish or reproduce the published form of this work, or allow others to do so, for United States Government purposes."

It is your responsibility to ensure that the final PDF version of the Paper you submit includes all necessary footers and statements required under your contract.

COPYRIGHT ASSIGNMENT

The following terms of copyright assignment refer to Sections 1, 2, and 3. Sections 4 and 5 may not be subject to copyright.

The undersigned hereby assigns irrevocably to ASME all worldwide rights under copyright in the Paper.

Authors retain all proprietary rights in any idea, process, procedure, or articles of manufacture described in the Paper, including the right to seek patent protection for them. Authors may perform, lecture, teach, conduct related research, display all

or part of the Paper, and create derivative works in print or electronic format. Authors may reproduce and distribute the Paper for non-commercial purposes only. Non-commercial applies only to the sale of the paper per se. For all copies of the Paper made by Authors, Authors must acknowledge ASME as original publisher and include the names of all author(s), the publication title, and an appropriate copyright notice that identifies ASME as the copyright holder.

PLEASE READ THE TERMS AND CONDITIONS WHICH ARE FULLY INCORPORATED IN THIS AGREEMENT.

PAPERS OWNED BY ONE AUTHOR OR JOINT AUTHORS; DESIGNATED AUTHORS (For jointly authored works, all authors should submit a signed Agreement, or one Designated Author may sign on behalf of the other authors, but ONLY IF the designated author has secured written authorization to do so from all other authors. The designated author must be able to produce such written authorization if requested.)

Assignment of copyright - IOP Publishing Limited

1. IOP Publishing Limited ("IOP") agrees to publish:

Manuscript Title: A Jellyfish-inspired Jet Propulsion Robot (JetPRo) actuated by an Iris mechanism ("the Article") written by

Names of all Authors: Kenneth Marut, Colin Stewart, Tyler Michael, Alex Viliianueva, Shashank Priya ("the Named Authors")

in the following journal: Smart Materials and Structures ("the Journal")

2. Transfer of Copyright Agreement

2.1 On acceptance for publication the undersigned author(s) ("Author") of the Article assigns exclusively to IOP worldwide copyright in the Article for the full term and for all media and formats in all material published as part of the Article, which expression includes but is not limited to the text, abstract, tables, figures, graphs, video abstracts and other multimedia content but excludes any other item referred to as supplementary material. For the avoidance of doubt, copyright does not subsist in any fundamental data underlying the Article and nothing in this Agreement is intended to limit access to or use of such data.

2.2 If any of the Named Authors are UK Government employees, on acceptance for publication the Author shall grant IOP a royalty free exclusive licence for the full term of copyright for all media and formats to do in relation to the Article all acts restricted by copyright worldwide.

2.3 On acceptance for publication the Author shall grant IOP a royalty free non-exclusive licence for the full term of copyright for all media and formats to do in relation to any supplementary material not deemed to be part of the Article all acts restricted by copyright worldwide.

3. Author Rights

3.1 IOP grants the Named Authors the rights specified in 3.2, 3.3 and 3.4. All such rights must be exercised for non-commercial purposes, if possible should display citation information and IOP's copyright notice, and for electronic use best efforts must be made to include a link to the on-line abstract in the Journal. Exercise of the rights in 3.3 and 3.4 additionally must not use the final published IOP format but the Named Author's own format (which may include amendments made following peer review, but not any editing, typesetting or other changes made by IOP) (the "Accepted Manuscript").

3.2 The rights are:

3.2.1 To make copies of the Article (all or part) for teaching purposes;

3.2.2 To include the Article (all or part) in a research thesis or dissertation;

3.2.3 To make oral presentation of the Article (all or part) and to include a summary and/or highlights of it in papers distributed at such presentations or in conference proceedings; and

3.2.4 All proprietary rights other than copyright.

3.3 The additional rights are to:

3.3.1 Use the Accepted Manuscript (all or part) without modification in personal compilations of a Named Author's own works (provided not created by third party publisher); and

3.3.2 Include the Accepted Manuscript (all or part) on a Named Author's own personal web site.

3.4 In addition to the above, no sooner than 12 months from the date of first publication of the Article, the Named Authors may:

3.4.1 Include the Accepted Manuscript (all or part) on websites of the institution (including its repository) where a Named Author worked when research for the Article was carried out; and

3.4.2 Include the Accepted Manuscript (all or part) on third party websites including e-print servers, but not on other publisher's websites.

Signature

In signing this Agreement the Author represents and warrants that the Article is the original work of the Named Authors, it has not been published previously in any form (other than as permitted in 3.2.2, 3.3 and 3.4 which fact has been notified to IOP Publishing Ltd in writing), all Named Authors have participated sufficiently in the conception and writing of the Article, have received the final version of the Article, agree to its submission and take responsibility for it, and submission has been approved as necessary by the authorities at the establishment where the research was carried out.

The Author warrants that he/she signs this Agreement as authorised agent for all Named Authors and has the full power to enter into this Agreement and to make the grants it contains, that the Article has not been and will not be submitted to another publisher prior to withdrawal or rejection, it does not infringe any third party rights, it contains nothing libellous or unlawful, all factual statements are to the best of the Author's knowledge true or based on valid research conducted according to accepted norms, and all required permissions have been obtained in writing.

All Named Authors assert their moral rights.

Each of the Named Authors consents to the publication and processing by IOP of their email addresses.

Author's signature.....Date.....

Signature on behalf of Institution.....Date.....

Note that if the Article was prepared as part of a Named Author's duties for their institution this Agreement must be signed by their institution as Author. Further, if there are several Named Authors it should be signed by one author in a representative capacity. If all Named Authors are employees of the US Government and the Article was prepared as part of their duties the Article is not eligible for copyright and one of the Named Authors should sign below to confirm this fact. If at least one of the Named Authors is not a US Government employee the above should be signed.

I (print name)..... confirm that all Named Authors are employees of the US Government, in particular the following agencies/departments:.....

I further confirm that the Article was prepared as part of their official duties and consequently the Article is not eligible for copyright.

Hi Dr. Costello and Dr. Colin,
I am finishing up my thesis corrections and need your written permission to use an image of Sarsia (below). I am not including any information about this particular experiment, just showing the image to illustrate Sarsia's cross-sectional geometry.

Hope all is well, thanks for your help!
