3. Dr. Lavery addressed the Members of the Commission regarding fan behavior at basketball games. Fan behavior is a reflection on the University, it is a concern for all associated with Virginia Tech. Dr. Lavery plans to form a committee to address this concern. Members of the Commission offered several suggestions including: activities which would encourage individuals to feel more a part of the University; providing opportunities to know athletes as students; and encouraging the cheerleaders to work more with the crowd. Dr. Lavery summarized by saying that though the numbers of individuals causing the problems at basketball games are small, the problem itself is more visible because of the television coverage.
