

**They Want Me to
Teach APA for 75
Students?:
Transforming Citation
Instruction for Large
(or Small) Classes**

1

**Teaching
citations can
be rough.**

2

**Students aren't
interested in the
nitty-gritty details
of perfect citations.**

3

**Students have
probably learned
the basics of
citations before.**

4

**Active learning is
possible when
teaching citations,
even in large
classes.**

How it works

- ⦿ Show a citation in correct format
 - Spend as much time as you think you need
- ⦿ Give students a link to a Google Form that shows them citation examples and asks them to spot problems

**Let's
try it!**

Mian, N. D., Carter, A. S., Pine, D. S.,

Observation Scale. *Journal of Child
