Hello,

I am completing my dissertation at the department of computer science at Virginia Tech. SIAM owns the copyright to one of the articles I wish to use (where I am first and corresponding author)

Popov, A. A., Mou, C., Sandu, A., & Iliescu, T. (2021). A multifidelity ensemble Kalman filter with reduced order control variates. *SIAM Journal on Scientific Computing*, 43(2), A1134-A1162.

and I was wondering if I could have the permission to use it in my dissertation (with appropriate copyright notice).

Thank you very much in advance for your time and help.

Best regards,

AAP
