

Hurts and Hazards Kids, Kitchen Accidents, and Safety

Ann A. Hertzler and Karen DeBord*

Objectives

- To identify hot, heavy, sharp, and electrical kitchen hazards that can hurt.
- To name hot things and safety rules to prevent hot accidents.
- To name sharp equipment and safety rules to prevent sharp accidents.
- To name heavy and/or electrical kitchen tasks and ways to prevent heavy and/or electrical accidents.

Children don't know limits to prevent hurts and hazards. But adults cannot wait until children are hurt to teach safety. Help children sort out safety procedures to prevent serious accidents. Remember, children learn best in small groups. Set up experiences in centers throughout the room.

3 years. Name kitchen dangers we can sense.

- ▲ Tour a kitchen and name hot, heavy, sharp, and electrical things.
- ▲ What can we see, hear, taste, smell, and feel that is dangerous?
- ▲ How are climbing and reaching dangerous?

3-5 years. How do kids and grownups have kitchen accidents?

- ▲ Sit in a circle. First person tells about a kitchen accident someone had. The next person tells a rule to prevent the accident and then tells about another accident. Continue play until all have had a turn.

In this series, the developmental skills in the preschool years are divided into three general levels:

2-3 years = naming & identifying

3-5 years = sorting & classifying

4-6 years = ordering, sequencing & comprehension

▲ = suggested activities and questions

- ▲ When should a child call an adult into the kitchen?
 - using a knife
 - reaching high places
 - cooking
- ▲ If an adult is not in the room when an accident happens, what should a child do?

4-6 years. Tell ways to deal with emergencies when someone is hurt.

- ▲ Practice dialing emergency numbers and giving emergency messages on a disconnected phone.
- ▲ When should the emergency number be dialed? Put emergency numbers where accessible.
- ▲ What do we do for emergencies at home? at school? or at day care?
- ▲ How can you get help when serious accidents happen?

4-6 years. Classify family feelings.

- ▲ Sometimes telling people they caused an accident can hurt their feelings.
- ▲ How can you tell if you hurt feelings?
- ▲ How do your feelings get hurt?
- ▲ What can you do to prevent hurting feelings?

* Extension Specialist, Human Nutrition and Foods, Virginia Tech; Extension Specialist, Family and Child Development, University of Missouri, Columbia, respectively.

Hot–Unsafe Practices

3 years. Name hot and cold things.

- ▲ Touch and feel a variety of hot and cold items:
 - ice
 - sunrays
 - heater
 - warm food
 - refrigerator
- ▲ Is it hot, warm, or cold?

3-5 years. Tell hot stories about how you got hurt.

- ▲ Tell a hot story about getting hurt.
 - Tape record the stories for the listening center.
- ▲ What could have been done differently?
- ▲ Let children draw a “hot” incident.
 - Write down the hot story in the child’s words.
 - Bind into books to display before taking home.

4-6 years. Classify hot safety rules for the family.

- ▲ Bring kitchen props to act out safety rules.
 - Use humor and get children’s input as to whether this is a “Do” rule or “Don’t” rule.
 - Let children make safety signs for the classroom for everyone.
- ▲ Name safety rules to prevent kitchen accidents.

4-6 years. Classify hot things in the kitchen.

- ▲ One way to tell when something is hot is by touching it. Touching a hot burner, a hot oven rack, or a hot pan usually results in a burn.
- ▲ What kitchen appliances can be hot?
 - How can you tell?
- ▲ We can feel:
 - sunburn
 - heat from food dish
 - oven
 - burner
 - or blister
- ▲ Tape record sounds of. . .
 - fire
 - boiling water
 - sizzling
 - teapot whistle
 - other

Creative Play

Prop Box—doctor/nurse kit

heart chart
stethoscope
food and nutrition pictures
surgical attire
rubber gloves
masks
cloth bandages or bandaids

Prop Box—first aid wagon

soap
bandaids
bandages
lotion
water droppers
cotton
tricycles
wagons
play cars

- ▲ Show pictures of. . .
 - steam
 - flame
 - bubbles
 - red burner
 - sunburn
 - blisters
 - fire.
- ▲ What can you see, feel, or hear without touching hot?
- ▲ How many hot things can you count?

Sharp—Unsafe Practices

3 years. Name sharp kitchen equipment and sharp rules for children.

- ▲ What things in the kitchen are sharp?
 - paring knife
 - scissors
 - blender blades
 - toaster slots
 - sharp plastics
 - broken glass
 - sharp blade edges
 - potato peeler
 - can opener
- ▲ What are signs of “too sharp” for children?

3-5 years. Tell safe handling tips for sharp kitchen equipment.

- ▲ Use the kitchen as your classroom or refer to visuals as you discuss these questions.
- ▲ How should sharp things be handled?
- ▲ How are sharp things stored in a special way?
- ▲ How are knives and scissors handled safely for cutting?
- ▲ How are sharp things handled safely in washing?
- ▲ What kinds of glass things in the kitchen can break?
- ▲ Who should clean up broken glass?

3-5 years. Tell sharp stories about how you got hurt by something sharp.

- ▲ Tell, draw, cut, or paste together pictures of sharp stories. Cut out a pair of large scissors or knife on which to display stories for parents to read.
- ▲ How did you or others get hurt by sharp things?
- ▲ What could you have done differently?

Creative Play

Take field trips to day care kitchens, and other kitchens in the area. Note safety features.

Hats of community helpers/food helpers

Make sure hats of community and food helpers are clean and are regularly disinfected.

fire fighters
police officers
construction workers
baseball type fast food
cooks
chefs

3-5 years. Practice knife safety using a table knife or blunt scissors.

- ▲ Use table knives or blunt scissors to cut. . .
 - cheese
 - yeast dough
 - meat loaf
 - cooked fruits/vegetables
 - clay
 - jello
 - hard cooked egg
 - parsley
 - banana
 - cookie dough
 - playdough
- ▲ Demonstrate and practice scissor/knife safety.
- ▲ How do you hold a knife or scissors safely?
Where are fingers placed when using a knife?

4-6 years. Name warning symbols.

- ▲ What symbols or signs are used in your home to warn of danger?
- ▲ What symbols or signs are used in the community?

Prop Box—food equipment demonstrator

work area—table top
kitchen utensils
pamphlets to hand out
bowls, pans
cutting board
safety rules

apron
dolls and teddy's for audience
white coat (shirt)
food models

Heavy & Electrical Unsafe Practices

3 years. Name heavy & electrical things in the kitchen.

- ▲ Tour a home or kitchen.
- ▲ What do you see that is heavy? electrical?
(big pots, pans, and bowls, watering cans, buckets, toaster, mixer, blender, microwave, food processor, full pitcher, popcorn popper).

3-5 years. Weigh items on different types of scales.

3-5 years. Write a children's story.

- ▲ Ask children to draw a safety story. Write story words on the same page. Accept whatever is said.
- ▲ Read aloud a book about safety from your story collection.

4-6 years. Tell about heavy and electrical things and accidents.

- ▲ Seeing grownups doing things in the kitchen looks easy. Children may have problems, especially since they are inexperienced, and not ready for surprises or emergencies. Talk about surprises.
- ▲ Act out heavy-electrical stories about how people can get hurt with heavy and electrical things.
- ▲ What could have been done differently?
- ▲ Name safety rules for heavy things and electrical things.
- ▲ Read aloud a story about family safety.

4-6 years. Practice what to do in an emergency.

- ▲ Practice calling 911 for emergencies.
- ▲ Learn how to say where you are and what the emergency is.

Creative play—make danger alert signs for small children

- ▲ What color should it be?
- ▲ What is the symbol?
- ▲ Take field trips to fire stations, hospitals, police stations, and community places that take care of emergencies. Involve parents when possible.

Prop Box—kitchen safety checker

Tablet

Virginia Cooperative Extension Publication
350-060, *Home Safety Check List for Families with Young Children.*

Permission to use the Mr. Yuk poison warning symbol given by Children's Hospital of Pittsburgh, 1992.

Mr. Yuk

Creative Play—poems, plays, and puppets

- ▲ Make up rhyme(s) or finger play to Old McDonald with words like spoon, toaster, and knife instead of animal names.
- ▲ Mime picking up a heavy box, a light box, a small box, a big box.
- ▲ Collect empty cardboard cartons of different sizes for free play.
