

Self-Assembly: Synthesis and Complexation of Crown Ethers and Cryptands with R₂-NH₂ Ions

William Stephen Bryant

Dissertation submitted to the Faculty of the Virginia Polytechnic Institute and State
University in partial fulfillment of the requirements for the degree of

Doctor of Philosophy
in
Chemistry

Approved:

Harry W. Gibson, Chair
James E. McGrath
Hervé Marand
Joseph S. Merola
James M. Tanko

August 6, 1999

Blacksburg, VA

Keywords: Self-Assembly, Rotaxanes, Stability Constants, Crown Ethers, Cryptands
