Hi,

I am trying to obtain permission to use a manuscript that has been accepted for publication by Lasers in Surgery and Medicine (and is in the proofing stage) as part of my master's thesis. I understand that this is something that is done frequently, and the graduate school at my university requires documentation of permission from the publishers in order to approve my thesis. I believe an e-mail communication is sufficient. The manuscript ID, as per LSM's system, is LSM-10-0286.R2. The manuscript is entitled: Mechanical Tissue Optical Clearing Technique Increases Imaging Resolution and Contrast through Ex Vivo Porcine Skin.

Please advise. I appreciate all the help :)

Sincerely,

Alondra Izquierdo-Roman
