- 1661 fruit canned.
- 11 syrup made
- 49 preserves etc. made
- 12 relishes made
- 14 soups mixtures made
- 50 lbs. of fruit dried.

Remarks

Members of the Advisory Board appeared before the County Board of Supervisors to request an appropriation to have the Disposition Book continued in Halifax County. The Board granted \$150.00. The County Fair Association kindly consented to give premiums to the club girls this fall, asking the agent to make her own list. The list was accepted with out a change.

One of the special problems for this year was to get the women to make sleeping garments of some sort for each member of their families. They have reported that they have done so.

Women as well as girls are becoming interested in buying bags for their poor clothes, and are providing themselves though they do not always make them for use material. One woman told me that she had never known such joy in any day as she experienced the first day she found the family again in a bag and not scattered over the house, as formerly.

Feeling that the County boys are generally neglected, each woman was asked to give her boys some special attention. Twenty-six report they are doing so.

Demonstrations have been given in preserving eggs in water glass, making fireless cookers, remodeling old poultry houses, as well as in the light and air.

During the Clean-up campaign fifteen homes were screened, thirty-eight were white-washed inside and four were white washed out side. Stagnant water near homes were filled in or dyined. Rubbish was gathered and burned. Gardens were swept, flowers planted, stoves and trees near homes were white washed.

Realizing that mothers were not giving their children enough milk to drink, the agent made special effort to teach the value of milk in the diet. As the result few come now brought by families who had none and three by persons who had one, but whose family was very large. These last felt that they needed an extra cow to give their children the amount of milk they needed. Many mothers have already seen beneficial results in their children's health.

There being an enormous supply of fruit and vegetables this year the agent put on a campaign of preservation of fruit and vegetables. 132 women and girls took part in this campaign and reported 10,110 lbs. of fruit and vegetables canned value - \$4,833.00

The County Club Rally and farmers picnic also the County Exhibit have been held. Five Community Exhibits and Family Conferences were to be held this year, also a campaign on storing vegetables for winter use.

Due January 1 1923

ANNUAL REPORT OF HOME DEMONSTRATION AGENT.

of

Halifax
County.

Martha C. Cook
County Home Demonstration Agent.
South Boston Virginia
Post Office State

Date.

Approved:

Date.

State Home Demonstration Agent.

Approved and forwarded:

Date.

Director.

Form No. 753.

98-828

Halifax County.

To the County Home Demonstration Agents:

It is very important to send in accurate and complete Annual Reports. The future success and support of the Home Demonstration Work depends upon your activities now. It will aid the cooperating authorities greatly to have adequate records of what has been done. The law requires such reports and the lawmakers are greatly interested in the development of all of the extension work.

The statistical part of the Home Demonstration Work has been simplified and condensed. It is hoped that it will be easier for you to make a full and graphic showing of the achievements of your women and girls. Of course it is not expected that every agent will be conducting demonstrations upon every phase of work every year. Do not hesitate, therefore, to have spaces blank where you have no work being done. On the other hand, it will be unjust to your demonstrators and club members to fail to report all of their real results.

Please note that all reports are to be in the offices of the State agents by January 1 of each year. This enables them to prepare their reports promptly and forward copies to the Washington office in the new year. It makes it possible to prepare reports in the United States Department of Agriculture in time for them to do the most possible good.

Do not wait until January 1 to send in your report if it is ready before that time. It should contain data to December 1. It is impossible to fully show the actual development in statistics. It is therefore suggested that you write a narrative report on separate sheets and attach same to this blank.

Send with the report a map of your county showing the number of demonstrators and cooperative agencies. It is suggested that on this map the data for girls' work be recorded in red ink, for women's work in black ink.

Write numbers of girl demonstrators in red and of women demonstrators in black, and if the demonstrators are in organized clubs enclose the figures in a circle of the corresponding color. For example: Demonstrators not in clubs, 1; demonstrators in organized clubs, 2. If both women and girls have organized clubs in one community have two circles with figures enclosed, one in black, one in red ink.

Indicate "community clubs" with a square in black ink, with membership numbers inside, as 30.

Indicate headquarters of county councils and other supporting organizations with stars, showing membership; e. g. 25.

These are minimum suggestions for the map. Other details may well be reported in this graphic form, but it is expected that every agent will send at least a simple map showing the fundamental and essential data indicated.

I. ENROLLMENT AND MEMBERSHIP.
