

Discrete Element Method (DEM) Contact Models Applied to Pavement Simulation

Bo Peng

Thesis submitted to the faculty of
the Virginia Polytechnic Institute and State University
in partial fulfillment of the requirements for the degree of

Master of Science
In
Civil Engineering

Linbing Wang
Montasir Abbas
Cristian Druta

June 18, 2014
Blacksburg, Virginia

Keywords: Discrete element method, contact models, pavement simulation, power-law viscoelasticity

Draft 09/01/2009

Virginia Tech ETD Fair Use Analysis Results

This is not a replacement for professional legal advice but an effort to assist you in making a sound decision.

Name: Bo Peng

Description of item under review for fair use: FIGURE 3.2 SKYSCAN 1174 system.Source:
<http://www.skyscan.be/products/1174.htm> Used under fair use, 2014

Report generated on: 07-28-2014 at : 10:15:09

Based on the information you provided:

Factor 1

Your consideration of the purpose and character of your use of the copyright work weighs: *in favor of fair use*

Factor 2

Your consideration of the nature of the copyrighted work you used weighs: *in favor of fair use*

Factor 3

Your consideration of the amount and substantiality of your use of the copyrighted work weighs: *in favor of fair use*

Factor 4

Your consideration of the effect or potential effect on the market after your use of the copyrighted work weighs: *in favor of fair use*

Based on the information you provided, your use of the copyrighted work weighs: *in favor of fair use*
