

A New Scheme for the Optimum Design of Stiffened Composite Panels with Geometric Imperfections

By

Mohamed Elseifi

Dissertation submitted to the Faculty of the
Virginia Polytechnic Institute and State University
in partial fulfillment of the requirements for the degree of

Doctor of Philosophy

In

Aerospace Engineering

Approved

Zafer Gürdal, Chairman

Efstratios Nikolaidis

Eric Johnson

Alfred Loos

Mike Hyer

November, 1998
Blacksburg Virginia

Keywords: Composite materials, Manufacturing, Imperfections, Design, Nonlinear finite element, Genetic algorithm, Optimization, Convex models, Uncertainty, Postbuckling, Autoclave curing
