Dear Muhammad Irfan Zafar,

We hereby grant you permission to reproduce the material detailed below at no charge subject to the following conditions:

RE:PAUL DURBIN, Advanced Approaches in Turbulence Theory, Modeling, Simulation, and Data Analysis for Turbulent Flows, 978-0-12-820774-1, only one figure (Figure 8.1).

Proposed Usage: reuse in a PhD dissertation.

1. If any part of the material to be used (for example, figures) has appeared in our publication with credit or acknowledgement to another source, permission must also be sought from that source. If such permission is not obtained then that material may not be included in your publication/copies.

2. Suitable acknowledgement to the source must be made, either as a footnote or in a reference list at the end of your publication, as follows:

“This article was published in Publication title, Vol number, Author(s), Title of article, Page Nos, Copyright Elsevier (or appropriate Society name) (Year).”

3. This permission is granted for non-exclusive world rights in all languages.

4. Reproduction (and, if necessary, redrawing or modification) of this material is granted for this and all subsequent editions, revisions, versions, derivative works, translations, ancillaries, adaptations, supplementary materials, custom editions, and in advertising and promotion thereof, in all formats and media now known or hereafter developed, throughout the world and in perpetuity.

Kind regards,

Kaveri Thakuria

Hello,

I am writing my PhD dissertation and want to include a figure from the book 'Advanced Approaches in Turbulence Theory, Modeling, Simulation, and Data Analysis for Turbulent Flows', (2021) edited by Paul Durbin.

Figure I want to use is Fig. 8.1 on page#374, captioned as 'Left, top view showing contours of wall-normal velocity perturbations.....'.

Kindly allow me the permission for reproducing these figure with proper reference.

Thanks.
