

Saddlepoint Approximation for Calculating Performance of Spectrum-Sliced WDM Systems

Seemant Teotia

Thesis submitted to the Faculty of the
Virginia Polytechnic Institute and State University
in partial fulfillment of the requirements for the degree of

MASTER OF SCIENCE
in
Electrical Engineering

Ira Jacobs, Chair
Tim Pratt
Brian Woerner

July 12, 1999
Blacksburg, Virginia

Keywords: WDM, Spectrum-Sliced, Saddlepoint Approximation, Interchannel
Interference
