Dear Mr. Rao:

It is our pleasure to grant you permission to use **Figures 1, 2 & 3** from "Mixing Analysis In A Lid-Driven Cavity Flow At Finite Reynolds Numbers," by P. Rao, A. Duggleby, and M. Stremler, Journal of Fluids Engineering, Volume 134, 2012, as cited in your letter for inclusion in a doctoral dissertation entitled Study Of The Dynamics Of Transport And Mixing In Fluid Systems Using Set Oriented Methods to be published by VirginiaTech.

Permission is granted for the specific use as stated herein and does not permit further use of the materials without proper authorization. Proper attribution must be made to the author(s) of the materials. **PLEASE NOTE:** if any or all of the figures and/or Tables are of another source, permission should be granted from that outside source or include the reference of the original source. ASME does not grant permission for outside source material that may be referenced in the ASME works.

As is customary, we request that you ensure full acknowledgment of this material, the author(s), source and ASME as original publisher. Acknowledgment must be retained on all pages printed and distributed.

Many thanks for your interest in ASME publications.

Sincerely,

Beth Darchi
