

Acknowledgments

I would like to express my gratitude to Dr. A. A. (Louis) Beex for being an outstanding advisor and excellent professor. His constant encouragement, support, and invaluable suggestions made this work successful. He has been everything that one could want in an advisor. I am deeply indebted to my committee members Dr. Brian D. Woerner and Dr. R. L. Moose for their time and effort in reviewing this work.

I would like to thank CrossMedia Corporation, Herndon, VA and Digital System Resources, Inc., Fairfax, VA for funding the projects I was involved in during the last two years.

My sincere thanks go to Dr. Sundar G. Sankaran for helping me understand adaptive filtering and John F. Tilki for providing me his valuable insights on system implementation issues. I would like to acknowledge my best friend Fakhru Alam for reviewing my thesis and providing valuable feedback. I am grateful to Raqibul Mostafa, Dr. Shatil Haque and Mostofa Howlader for their help and valuable advice, and for being great friends throughout my stay at Tech.

I am deeply and forever indebted to my parents for their love, support and encouragement throughout my entire life. I am also very grateful to my brothers Sukesh and Pranabesh, and to my only sister Nibedita.
