

## **Copyright Release**

This document has been requested by the Signature Approval System hosted by the Virginia Tech Graduate School (<https://ess.graduateschool.vt.edu/>) and is submitted along with a PDF copy of my dissertation, “Effects of freshwater salinization and associated base cations on bacterial ecology and water quality”, in partial fulfillment of the requirements for the degree of Doctor of Philosophy in Crop and Soil Environmental Sciences.

I, Stephen E. DeVilbiss, claim copyright protection for my Ph.D. dissertation, “Effects of freshwater salinization and associated base cations on bacterial ecology and water quality” (2020). In accordance with VT Graduate School requirements, I hereby grant to Virginia Tech and its agents the non-exclusive license to archive and make accessible my dissertation [in whole or in part in all forms of media], now or hereafter known. I retain all ownership rights to the copyright of the thesis or dissertation. I also retain the right to use in future (such as articles or books) all or part of this dissertation.

Stephen E. DeVilbiss
