

Table of Contents

Chapter 1: Research Objectives and Literature Review.....	1
1.1 Introduction.....	1
1.2 Literature Review.....	3
1.2.1 Describing Vibration.....	3
1.2.2 Vibration Isolation.....	6
1.2.2.1 Overview.....	6
1.2.2.2 Types of Isolators.....	7
1.2.2.3 Single-Degree-of-Freedom System.....	7
1.2.2.4 Stiffness in Vertical Vibration Isolators.....	8
1.2.3 Elastically Buckled Struts as Isolators.....	9
1.3 Research Scope.....	10
1.3.1 Overview.....	10
1.3.2 Research Scope.....	10
1.3.2.1 Two Buckled Struts Supporting a Rigid Bar.....	11
1.3.2.2 Two Buckled Struts Supporting an Asymmetric Rigid Bar.....	11
1.3.2.3 Two Pairs of Pre-bent Struts with an Intermediate Bonded Filler, Supporting a Rigid Bar.....	12
1.3.3 Objectives.....	13
Chapter 2: Rigid Bar Supported by Two Buckled Struts under Axial, Harmonic, Displacement Excitation.....	14
2.1 Introduction.....	14
2.2 General Model Description.....	14
2.3 Symmetric Bar.....	15
2.3.1 Equilibrium Analysis Procedure.....	15
2.3.2 Dynamic Analysis Procedure.....	19
2.3.3 Results for Symmetric Bar.....	26
2.4 Asymmetric Bar.....	28
2.4.1 Equilibrium Analysis Procedure.....	28

2.4.2	Equilibrium Results.....	31
2.4.3	Dynamic Analysis Procedure.....	37
2.4.3.1	Strut Equations.....	37
2.4.3.2	Rigid Body Equations.....	38
2.4.3.3	Boundary Conditions.....	41
2.4.4	Results for Asymmetric Bar.....	44
2.4.5	Asymmetric Bar with No Static Rotation.....	55
2.4.5.1	Equilibrium Analysis Modifications.....	56
2.4.5.2	Equilibrium Results.....	57
2.4.5.3	Dynamic Analysis Modifications.....	58
2.4.5.4	Dynamic Results.....	58
2.5	Summary and Conclusions.....	62
Chapter 3: Symmetric Rigid Bar Supported by Two Pairs of Pre-bent Struts with Intermediate Bonded Filler.....		64
3.1	Introduction.....	64
3.2	Equilibrium Analysis.....	65
3.3	Equilibrium Analysis Results.....	69
3.4	Dynamic Analysis	72
3.5	Dynamic Analysis Results.....	75
3.6	Dimensional Example.....	79
3.7	Summary and Conclusions.....	84
Chapter 4: Summary and Conclusions.....		86
4.1	Summary.....	86
4.2	Conclusions.....	87
4.3	Future Research.....	90
References.....		92

Appendix A: Equilibrium Program for Single Strut - Symmetric Bar.....	94
Appendix B: Dynamic Program for Single Strut – Symmetric Bar.....	96
Appendix C: Equilibrium Program for Two Struts - Asymmetric Bar.....	98
Appendix D: Dynamic Program for Two Struts – Asymmetric Bar.....	101
Appendix E: Additional Transmissibility Plots – Asymmetric Bar.....	105
Appendix F: Rotation vs. Frequency Plots – Asymmetric Bar.....	106
Appendix G: Additional Adjusted Strut Stiffness Plots.....	109
Appendix H: Equilibrium Program for Pre-bent Struts with Filler.....	115
Appendix I: Dynamic Program for Pre-bent Struts with Filler.....	117
Vita.....	119

List of Figures
