- Individual in Society - Virginia Tech, Summer Session II, 1997 (12) and Fall, 1998 (47), Virginia Tech University
- Introductory Sociology, "Self-Taught"- 1997 (140), Spring, 1998 (100), Fall, 1999 (135), Virginia Tech University

Research Interests

- Social Change and Inequality of Gender, Class, Race and Sexuality
- The Sociology of Knowledge and Science
- Research Methodology and Social Theory

My current research explores social change in mainstream media representation and visibility of sexual minorities. Applying critical, social movement, cultural, and postmodern feminist theory, I analyze three decades of *New York Times* business news/advertising articles.

Concurrently, I am completing a quantitative international study of time usage, leisure patterns and consumption in adolescence. I developed and distributed questionnaires to high school students in Albania, Holland, and northern and southern regions in the United States.

A future project I am planning involves addressing some methodological issues facing qualitative researchers. Specifically, I aim to explore issues of objectivity, epistemic and judgmental relativism, discussing the implications and practice applications of these concepts

Grants and Publications

Grants:

- Mentoring Program Diversity Research Grant, \$1500, 2000–2001

Published Reviews:

- Review article of Peter Coates' *Nature: Western Attitudes since Ancient Times*, in the *Journal of the History of Biology*, Winter, 1999, Vol.32, pp.579-81
- Review article of John Rensenbrink's *Against All Odds: The Green Transformation of American Politics* in *The New River Free Press*, July 5, 1999
