Hi Brian--

Hope you and your family are having a pleasant holiday season! Sorry to write right before Christmas.

I'm just writing for permission to use the Engineers with a Mission and JustEnergy (I like the name change!) logos in my dissertation. I'm assuming you own the images, but if not, feel free to send my request to the appropriate folks. No need to fill out any paperwork; if you agree, I will just submit this email correspondence with the document.

The caption reads:

On the left, the logo for the Baylor student organization, Engineers with a Mission. On the right, the logo for JustEnergy.

They are obviously left and right on the page. :)

I'm still in the editing phase, but I'm happy to report that I will be ready to share my dissertation with you in just a few weeks!

All the best,
Marie

Hi Marie!

I am excited to read your dissertation soon, thanks for the update. You do have our permission to use the logos – and I have attached the most up-to-date versions with what I hope is sufficient resolution.

Brian

Hi [REDACTED]

I hope this finds you well!

I'm finishing up the last of my dissertation edits, hurray!

I would like to include the attached picture--that I took during a RED classroom module back in Fall 2019--in my dissertation. VT grad school is looking for written confirmation that these students consented to have their pictures taken to be used for research applications.

I remember you received written permission from all participating students via a consent form. Can you confirm that is the case and/or that those whose faces are in the picture consented? In addition, could you send me the consent form that you used?

I will need to use our email exchange (with your contact info redacted) and the consent form as supplementary material.

Please let me know if you have any questions. Apologies for the rush, but they are looking for this consent by Friday!

Thanks so much for your help,
Marie

Hi Marie,

I'm tempted to include a 'how this email finds me' meme so it is included in your dissertation! 😊

Anyways, congrats on finishing up edits! Did you defend already?

Yes, we collected informed consent for all RED activities in that class on the day of the "Bring in Your Trash" module within the picture. My records show that all students agreed to let themselves be photographed. Here is a screenshot with identifying information removed:
