Permission granted for Geosciences figure

Richard Law <rdlaw@vt.edu>

Wed, May 17, 2023 at 3:56 PM

To: Cassie Becker <cebecker@vt.edu>

Dear Cassie

This is a formal notification that I hereby give you permission to use my figure (Fig 9) from my 2021 paper published in Geosciences. As you know Geosciences does not require that permission be granted by them for reproduction of any figure in this journal.

Sincerely,
Richard Law
Professor of Geology

Copyright and Licensing

For all articles published in MDPI journals, copyright is retained by the authors. Articles are licensed under an open access Creative Commons CC BY 4.0 license, meaning that anyone may download and read the paper for free. In addition, the article may be reused and quoted provided that the original published version is cited. These conditions allow for maximum use and exposure of the work, while ensuring that the authors receive proper credit.

In exceptional circumstances articles may be licensed differently. If you have specific condition (such as one linked to funding) that does not allow this license, please mention this to the editorial office of the journal at submission. Exceptions will be granted at the discretion of the publisher.

Reproducing Published Material from other Publishers

It is absolutely essential that authors obtain permission to reproduce any published material (figures, schemes, tables or any extract of a text) which does not fall into the public domain, or for which they do not hold the copyright. Permission should be requested by the authors from the copyright holder (usually the Publisher, please refer to the imprint of the individual publications to identify the copyright holder).

Permission **is required** for:

1. Your own works published by other Publishers and for which you did not retain copyright.
2. Substantial extracts from anyone's works or a series of works.
3. Use of Tables, Graphs, Charts, Schemes and Artworks if they are unaltered or slightly modified.
4. Photographs for which you do not hold copyright.

Permission **is not required** for:

1. Reconstruction of your *own* table with data already published elsewhere. Please notice that in this case you must cite the source of the data in the form of either "Data from..." or "Adapted from...".
2. Reasonably short quotes are considered *fair use* and therefore do not require permission.
3. Graphs, Charts, Schemes and Artworks that are completely redrawn by the authors and significantly changed beyond recognition do not require permission.

Obtaining Permission

In order to avoid unnecessary delays in the publication process, you should start obtaining permissions as early as possible. If in any doubt about the copyright, apply for permission. MDPI cannot publish material from other publications without permission.

The copyright holder may give you instructions on the form of acknowledgement to be followed; otherwise follow the style: "Reproduced with permission from [author], [book/journal title]; published by [publisher], [year]." at the end of the caption of the Table, Figure or Scheme.

Creative Commons Legal Code

Attribution-ShareAlike 4.0 International

Official translations of this license are available [in other languages](#).

Creative Commons Corporation (“Creative Commons”) is not a law firm and does not provide legal services or legal advice. Distribution of Creative Commons public licenses does not create a lawyer-client or other relationship. Creative Commons makes its licenses and related information available on an “as-is” basis. Creative Commons gives no warranties regarding its licenses, any material licensed under their terms and conditions, or any related information. Creative Commons disclaims all liability for damages resulting from their use to the fullest extent possible.

Using Creative Commons Public Licenses

Creative Commons public licenses provide a standard set of terms and conditions that creators and other rights holders may use to share original works of authorship and other material subject to copyright and certain other rights specified in the public license below. The following considerations are for informational purposes only, are not exhaustive, and do not form part of our licenses.

Considerations for licensors: Our public licenses are intended for use by those authorized to give the public permission to use material in ways otherwise restricted by copyright and certain other rights. Our licenses are irrevocable. Licensors should read and understand the terms and conditions of the license they choose before applying it. Licensors should also secure all rights necessary before applying our licenses so that the public can reuse the material as expected. Licensors should clearly mark any material not subject to the license. This includes other CC-licensed material, or material used under an exception or limitation to copyright.

Considerations for the public: By using one of our public licenses, a licensor grants the public permission to use the licensed material under specified terms and conditions. If the licensor’s permission is not necessary for any reason—for example, because of any applicable exception or limitation to copyright—then that use is not regulated by the license. Our licenses grant only permissions under copyright and certain other rights that a licensor has authority to grant. Use of the licensed material may still be restricted for other reasons, including because others have copyright or other rights in the material. A licensor may make special requests, such as asking that all changes be marked or described. Although not required by our licenses, you are encouraged to respect those requests where reasonable.

Creative Commons Attribution-ShareAlike 4.0 International Public License

By exercising the Licensed Rights (defined below), You accept and agree to be bound by the terms and conditions of this Creative Commons Attribution-ShareAlike 4.0 International Public License ("Public License"). To the extent this Public License may be interpreted as a contract, You are granted the Licensed Rights in consideration of Your acceptance of these terms and conditions, and the Licensor grants You such rights in consideration of benefits the Licensor receives from making the Licensed Material available under these terms and conditions.

Section 1 – Definitions.

- a. **Adapted Material** means material subject to Copyright and Similar Rights that is derived from or based upon the Licensed Material and in which the Licensed Material is translated, altered, arranged, transformed, or otherwise modified in a manner requiring permission under the Copyright and Similar Rights held by the Licensor. For purposes of this Public License, where the Licensed Material is a musical work, performance, or sound recording, Adapted Material is always produced where the Licensed Material is synched in timed relation with a moving image.
- b. **Adapter's License** means the license You apply to Your Copyright and Similar Rights in Your contributions to Adapted Material in accordance with the terms and conditions of this Public License.
- c. **BY-SA Compatible License** means a license listed at creativecommons.org/compatiblelicenses, approved by Creative Commons as essentially the equivalent of this Public License.
- d. **Copyright and Similar Rights** means copyright and/or similar rights closely related to copyright including, without limitation, performance, broadcast, sound recording, and Sui Generis Database Rights, without regard to how the rights are labeled or categorized. For purposes of this Public License, the rights specified in Section 2(b)(1)-(2) are not Copyright and Similar Rights.
- e. **Effective Technological Measures** means those measures that, in the absence of proper authority, may not be circumvented under laws fulfilling obligations under Article 11 of the WIPO Copyright Treaty adopted on December 20, 1996, and/or similar international agreements.
- f. **Exceptions and Limitations** means fair use, fair dealing, and/or any other exception or limitation to Copyright and Similar Rights that applies to Your use of the Licensed Material.
- g. **License Elements** means the license attributes listed in the name of a Creative Commons Public License. The License Elements of this Public License are Attribution and ShareAlike.
- h. **Licensed Material** means the artistic or literary work, database, or other material to which the Licensor applied this Public License.
- i. **Licensed Rights** means the rights granted to You subject to the terms and conditions of this Public License, which are limited to all Copyright and Similar Rights that apply to Your use of the Licensed Material and that the Licensor has authority to license.
- j. **Licensor** means the individual(s) or entity(ies) granting rights under this Public License.
- k. **Share** means to provide material to the public by any means or process that requires permission under the Licensed Rights, such as reproduction, public display, public performance, distribution, dissemination, communication, or importation, and to make material available to the public including in

ways that members of the public may access the material from a place and at a time individually chosen by them.

- I. **Sui Generis Database Rights** means rights other than copyright resulting from Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, as amended and/or succeeded, as well as other essentially equivalent rights anywhere in the world.
- m. **You** means the individual or entity exercising the Licensed Rights under this Public License. **Your** has a corresponding meaning.

Section 2 – Scope.

a. License grant.

1. Subject to the terms and conditions of this Public License, the Licensor hereby grants You a worldwide, royalty-free, non-sublicensable, non-exclusive, irrevocable license to exercise the Licensed Rights in the Licensed Material to:
 - A. reproduce and Share the Licensed Material, in whole or in part; and
 - B. produce, reproduce, and Share Adapted Material.
2. Exceptions and Limitations. For the avoidance of doubt, where Exceptions and Limitations apply to Your use, this Public License does not apply, and You do not need to comply with its terms and conditions.
3. Term. The term of this Public License is specified in Section 6(a).
4. Media and formats; technical modifications allowed. The Licensor authorizes You to exercise the Licensed Rights in all media and formats whether now known or hereafter created, and to make technical modifications necessary to do so. The Licensor waives and/or agrees not to assert any right or authority to forbid You from making technical modifications necessary to exercise the Licensed Rights, including technical modifications necessary to circumvent Effective Technological Measures. For purposes of this Public License, simply making modifications authorized by this Section 2(a)(4) never produces Adapted Material.
5. Downstream recipients.
 - A. Offer from the Licensor – Licensed Material. Every recipient of the Licensed Material automatically receives an offer from the Licensor to exercise the Licensed Rights under the terms and conditions of this Public License.
 - B. Additional offer from the Licensor – Adapted Material. Every recipient of Adapted Material from You automatically receives an offer from the Licensor to exercise the Licensed Rights in the Adapted Material under the conditions of the Adapter’s License You apply.
 - C. No downstream restrictions. You may not offer or impose any additional or different terms or conditions on, or apply any Effective Technological Measures to, the Licensed Material if doing so restricts exercise of the Licensed Rights by any recipient of the Licensed Material.
6. No endorsement. Nothing in this Public License constitutes or may be construed as permission to assert or imply that You are, or that Your use of the Licensed Material is, connected with, or

sponsored, endorsed, or granted official status by, the Licensor or others designated to receive attribution as provided in Section [3\(a\)\(1\)\(A\)\(i\)](#).

b. Other rights.

1. Moral rights, such as the right of integrity, are not licensed under this Public License, nor are publicity, privacy, and/or other similar personality rights; however, to the extent possible, the Licensor waives and/or agrees not to assert any such rights held by the Licensor to the limited extent necessary to allow You to exercise the Licensed Rights, but not otherwise.
2. Patent and trademark rights are not licensed under this Public License.
3. To the extent possible, the Licensor waives any right to collect royalties from You for the exercise of the Licensed Rights, whether directly or through a collecting society under any voluntary or waivable statutory or compulsory licensing scheme. In all other cases the Licensor expressly reserves any right to collect such royalties.

Section 3 – License Conditions.

Your exercise of the Licensed Rights is expressly made subject to the following conditions.

a. Attribution.

1. If You Share the Licensed Material (including in modified form), You must:
 - A. retain the following if it is supplied by the Licensor with the Licensed Material:
 - i. identification of the creator(s) of the Licensed Material and any others designated to receive attribution, in any reasonable manner requested by the Licensor (including by pseudonym if designated);
 - ii. a copyright notice;
 - iii. a notice that refers to this Public License;
 - iv. a notice that refers to the disclaimer of warranties;
 - v. a URI or hyperlink to the Licensed Material to the extent reasonably practicable;
 - B. indicate if You modified the Licensed Material and retain an indication of any previous modifications; and
 - C. indicate the Licensed Material is licensed under this Public License, and include the text of, or the URI or hyperlink to, this Public License.
2. You may satisfy the conditions in Section [3\(a\)\(1\)](#) in any reasonable manner based on the medium, means, and context in which You Share the Licensed Material. For example, it may be reasonable to satisfy the conditions by providing a URI or hyperlink to a resource that includes the required information.
3. If requested by the Licensor, You must remove any of the information required by Section [3\(a\)\(1\)\(A\)](#) to the extent reasonably practicable.

b. ShareAlike.

In addition to the conditions in Section 3(a), if You Share Adapted Material You produce, the following conditions also apply.

1. The Adapter's License You apply must be a Creative Commons license with the same License Elements, this version or later, or a BY-SA Compatible License.
2. You must include the text of, or the URI or hyperlink to, the Adapter's License You apply. You may satisfy this condition in any reasonable manner based on the medium, means, and context in which You Share Adapted Material.
3. You may not offer or impose any additional or different terms or conditions on, or apply any Effective Technological Measures to, Adapted Material that restrict exercise of the rights granted under the Adapter's License You apply.

Section 4 – Sui Generis Database Rights.

Where the Licensed Rights include Sui Generis Database Rights that apply to Your use of the Licensed Material:

- a. for the avoidance of doubt, Section 2(a)(1) grants You the right to extract, reuse, reproduce, and Share all or a substantial portion of the contents of the database;
- b. if You include all or a substantial portion of the database contents in a database in which You have Sui Generis Database Rights, then the database in which You have Sui Generis Database Rights (but not its individual contents) is Adapted Material, including for purposes of Section 3(b); and
- c. You must comply with the conditions in Section 3(a) if You Share all or a substantial portion of the contents of the database.

For the avoidance of doubt, this Section 4 supplements and does not replace Your obligations under this Public License where the Licensed Rights include other Copyright and Similar Rights.

Section 5 – Disclaimer of Warranties and Limitation of Liability.

- a. **Unless otherwise separately undertaken by the Licensor, to the extent possible, the Licensor offers the Licensed Material as-is and as-available, and makes no representations or warranties of any kind concerning the Licensed Material, whether express, implied, statutory, or other. This includes, without limitation, warranties of title, merchantability, fitness for a particular purpose, non-infringement, absence of latent or other defects, accuracy, or the presence or absence of errors, whether or not known or discoverable. Where disclaimers of warranties are not allowed in full or in part, this disclaimer may not apply to You.**
- b. **To the extent possible, in no event will the Licensor be liable to You on any legal theory (including, without limitation, negligence) or otherwise for any direct, special, indirect, incidental, consequential, punitive, exemplary, or other losses, costs, expenses, or damages arising out of**

this Public License or use of the Licensed Material, even if the Licensor has been advised of the possibility of such losses, costs, expenses, or damages. Where a limitation of liability is not allowed in full or in part, this limitation may not apply to You.

- c. The disclaimer of warranties and limitation of liability provided above shall be interpreted in a manner that, to the extent possible, most closely approximates an absolute disclaimer and waiver of all liability.

Section 6 – Term and Termination.

- a. This Public License applies for the term of the Copyright and Similar Rights licensed here. However, if You fail to comply with this Public License, then Your rights under this Public License terminate automatically.

- b. Where Your right to use the Licensed Material has terminated under Section 6(a), it reinstates:

1. automatically as of the date the violation is cured, provided it is cured within 30 days of Your discovery of the violation; or
2. upon express reinstatement by the Licensor.

For the avoidance of doubt, this Section 6(b) does not affect any right the Licensor may have to seek remedies for Your violations of this Public License.

- c. For the avoidance of doubt, the Licensor may also offer the Licensed Material under separate terms or conditions or stop distributing the Licensed Material at any time; however, doing so will not terminate this Public License.
- d. Sections 1, 5, 6, 7, and 8 survive termination of this Public License.

Section 7 – Other Terms and Conditions.

- a. The Licensor shall not be bound by any additional or different terms or conditions communicated by You unless expressly agreed.
- b. Any arrangements, understandings, or agreements regarding the Licensed Material not stated herein are separate from and independent of the terms and conditions of this Public License.

Section 8 – Interpretation.

- a. For the avoidance of doubt, this Public License does not, and shall not be interpreted to, reduce, limit, restrict, or impose conditions on any use of the Licensed Material that could lawfully be made without permission under this Public License.
- b. To the extent possible, if any provision of this Public License is deemed unenforceable, it shall be automatically reformed to the minimum extent necessary to make it enforceable. If the provision cannot be reformed, it shall be severed from this Public License without affecting the enforceability of the remaining terms and conditions.

- c. No term or condition of this Public License will be waived and no failure to comply consented to unless expressly agreed to by the Licensor.
- d. Nothing in this Public License constitutes or may be interpreted as a limitation upon, or waiver of, any privileges and immunities that apply to the Licensor or You, including from the legal processes of any jurisdiction or authority.

Creative Commons is not a party to its public licenses. Notwithstanding, Creative Commons may elect to apply one of its public licenses to material it publishes and in those instances will be considered the “Licensor.” The text of the Creative Commons public licenses is dedicated to the public domain under the [CC0 Public Domain Dedication](#). Except for the limited purpose of indicating that material is shared under a Creative Commons public license or as otherwise permitted by the Creative Commons policies published at creativecommons.org/policies, Creative Commons does not authorize the use of the trademark “Creative Commons” or any other trademark or logo of Creative Commons without its prior written consent including, without limitation, in connection with any unauthorized modifications to any of its public licenses or any other arrangements, understandings, or agreements concerning use of licensed material. For the avoidance of doubt, this paragraph does not form part of the public licenses.

Open Access Articles

Articles that have the Open Access padlock logo can be used freely without permission. However, if you re-use figures or other parts of the article you must acknowledge the author and the source of the material. If your article uses more than 25% of an Open Access article or if more than 25% of your article comes from an Open Access article it could constitute duplicate publication and be in contravention of normal publishing ethics.

Articles with the 'Free' logo are not the same as Open Access and are subject to the conditions below.

Other Articles

All articles published in Geological Society books and journals that do not have the Open Access padlock logo, including ones that are free to access online, are subject to the conditions below.

Re-publishing material from Geological Society of London copyright

Using material from GSL publications

Extensive quotation (more than c. 100 words) and reproduction of previously published illustrations (even if re-drawn) require permission from the rights holder (GSL in this case). In the UK, material remains in copyright until 70 years after the death of the author.

Material that can be used without permission:

Authors may re-use their own material without permission subject to the exceptions listed below. They may include the whole article in a PhD or other thesis provided that it will not be published, and that the original source is fully acknowledged in the standard form (see below for examples). If the thesis is to be included in the institution's electronic repository or other online host, authors must use their own finally accepted version, not the typeset PDF (unless it is [Gold Open Access](#)). Please also see [Copyright Policy and Terms of Use for Authors](#) and [Sharing your article](#). Authors may not re-publish their whole article, or a substantial part of it, without permission. Such permission will be granted only in exceptional circumstances.

Anyone may use up to three items* (text extracts of 100 words or less, figures or tables) from GSL published

material without permission or charge provided that a proper acknowledgement of source is made (see below for examples).

*There are no free items if formal permission is required from us (e.g. a letter of authorisation or completion of a form) - please use the [Copyright Clearance Center](#) (see details below).

The abstracts of articles can be reproduced without permission or fees provided that a full reference and a link to the article abstract page are included.

Please check that GSL is the original publisher and that the material has not been taken from another source. For a figure that has been modified or re-drawn in a GSL publication the rights are still held by the original copyright holder. In those cases, you must contact the original rights holder.

GSL is not usually the rights holder for cover photographs, and permission must be sought from the owner/photographer.

If your article forms part of a multi-author book, the publisher must ensure that the total number of items from GSL publications does not exceed three (this does not apply to journal issues).

Re-using material in another GSL publication

You may use material from GSL publications in another GSL publication without permission from GSL subject to the exceptions listed below. However, if there are more than three items from an individual article, you must seek the author's consent directly. If they do not respond within four weeks, you can assume that consent is given.

Exceptions

You may not use more than 25% of any GSL published article in a single publication and no publication should contain more than 25% in total from GSL publications. This does not prevent the inclusion of whole articles in course packs and the like (which do not constitute republication).

You may not post a typeset PDF of a GSL article on any website, repository or server (see [Lyell Collection terms and conditions](#) for more information).

Example acknowledgement of source

Example 1.

Figure caption: 'Fig. 1. Simplified geological map (from Bolle *et al.* 2020, fig. 2).'

– with the reference to 'Bolle, O., Diot, H., Fransen, W. and Higgins, M.D. 2020. Central sagging of a giant mafic intrusion: the Ediacaran Sept Îles Layered Intrusion (Québec, Canada). *Journal of the Geological Society, London*, **178**, jgs2020-029, <https://doi.org/10.1144/jgs2020-029>' included in the reference list.

Example 2.

Figure caption: 'Fig. 2. Increase in citations of palaeoecological articles over the years 2000–15 (modified from van Asperen *et al.* 2020, fig. 1).'

– with the reference to 'van Asperen, E.N., Perrotti, A. and Baker, A. 2020. Coprophilous fungal spores: NPPs for the study of past megaherbivores. *Geological Society, London, Special Publications*, **511**, <https://doi.org/10.1144/SP511-2020-41>' included in the reference list.

GSL adheres to the STM Permissions Guidelines

The STM guidelines are designed to facilitate re-use of limited amounts of material from published works free of charge between STM signatory publishers and does not require formal permission between these publishers but does require acknowledgement of the original publication. [A list of STM signatories to these guidelines](#)

- Anyone may use up to three figures (including tables) from a single journal article or book chapter.
- No more than five figures from a whole book or journal issue/edition may be used
- No more than six figures may be used from an annual journal volume
- No more than 30 figures from GSL publications may be used in a book or multi-author volume
- Content may not be modified in any way without permission

Uses where permission is required

For more than three items, please use the [Copyright Clearance Center](#) to obtain a quote and pay for permission.

If there are more than three items from an individual article, you must also seek the author's consent. If they do not respond within four weeks, you can assume consent. You should contact the author at the address on the original article, or use [Google Scholar](#) or other search engine to trace them.

Authors are responsible for ensuring that their mail gets forwarded when they move. For papers published before 1980, a more pragmatic approach can be taken with author consent. If you want GSL to check the authors' contact details there may be a charge for the service and there is no guarantee that we have the correct address.

Example fees for re-publishing GSL material (the price depends on requester and usage type):

Type of use	Price per item in US\$*

--	------	------	------	------	------	------	------	------	------

*there are no free items if formal permission is required (e.g. completion of a form).

Applications

Please use the [Copyright Clearance Center](#). For enquiries please contact sales@geolsoc.org.uk

Using material from journals published by GSL on behalf of other societies

The co-published journals *Petroleum Geoscience* and *Geochemistry: Exploration, Environment, Analysis* are handled in the same way as other GSL publications.

Permission requests for *Scottish Journal of Geology*, *Transactions of the Edinburgh or Glasgow Geological Societies* ([SJG editorial board](#)) and *Proceedings of the Yorkshire Geological Society* ([PYGS editorial board](#)) should be addressed to the editor of the journal. For *Journal of Micropalaeontology* please see the [journal website](#).

Geology Today is published for GSL and GA by [Wiley](#). Please see their website for permission details.

Millennium Atlas

The print edition of the Millennium Atlas is GSL copyright. For the GIS edition please contact [Exploration Geoscience Ltd.](#)

Use of PDFs

Information on the use of PDFs by others can be found in the [Lyell Collection pages](#).

Authors: Information on the use of PDFs and other versions of your paper can be found on our [Copyright and Terms of Use page](#).

Obtaining a PDF of an article

Non-subscribers should use the [Pay-Per-View](#) facility to purchase access to the article PDF from the Lyell Collection. Once you have access, you will be able to download and save a copy within the purchased access period (for your personal use only).

All authors will receive an eprint notification email with instructions detailing how to access and download their published paper from the Lyell Collection. The email will be sent when your accepted manuscript is posted online. Authors should keep the link provided so they can access the Version of Record and issue versions of the paper. [How authors can share their article](#).

We do not provide free access to articles directly to other individuals.

If you are at an approved institution in a developing country then further access information can be found [here](#).

Supplementary material

Most supplementary material items on the [Geological Society figshare portal](#) are licensed under the [CC-BY license](#). They are

openly available, but an appropriate credit including the authors, title, source link, license link and an indication of any changes made, must be given to the original item in all cases.

For example:

Perdiou, A., Thibault, N., Anderskov, K., van Buchem, F., Buijs, G. J. A., Bjerrum, C. J. 2015. Orbital calibration of the late Campanian carbon isotope event in the North Sea. figshare, <https://doi.org/10.6084/m9.figshare.c.2134362> used under a [Creative Commons Attribution Licence 4.0](#)

Please visit [Creative Commons](#) and [Best practices for attribution](#) for more information and guidance.

Datasets on the Geological Society [figshare portal](#) are licensed under the [CC0 license](#). Others can copy, modify, distribute and perform the work, even for commercial purposes, all without asking permission. The moral responsibility to cite the source remains, as is common in scientific research, although CC0 does not legally require attribution.

Photocopying and digital copying

You may make limited hard copies of an article for your own research or educational purposes (not including course packs) if you have access rights to the material. You do not need to request permission to do this.

For more extensive copying or digital reproduction, you need to obtain a licence from the [Copyright Licensing Agency](#), the [Copyright Clearance Center](#) or from your local reproduction rights agency.

Lecture and presentations

You may include material from Society copyright in a visual presentation if you have access rights to the material and provided that you will not circulate digital or hard copies of your presentation. You do not need to request permission to do this.

If you wish to circulate copies of your presentation to students or others, please obtain 'course-pack' permission from the Copyright Licensing Agency: www.cla.co.uk or the Copyright Clearance Center: www.copyright.com or from your local reproduction rights agency.

Using other GSL material

- *Geoscientist* content: please email the [editor](#).

Dear Cassie

On behalf of the Edinburgh Geological Society I am very happy to give you permission to use Figure 14.2 from chapter 14 of Strachan, R., Alsop, I., Friend, C & Miller, S. 2010. An excursion guide to the Moine geology of the Northern Highlands of Scotland. Edinburgh Geological Society; we note that it will be used in two locations in your thesis.

Thank you for contacting us and best wishes for finishing and submitting your thesis.

Angus Miller
