To whom it may concern,

I am a graduate student at Virginia Tech currently finishing my thesis. I was told by the graduate school that I need permission to use several Worksheets/Figures from one of your books.

Specifically, I intend to use the following Worksheets/Figures from WARSSS - Watershed Assessment of River Stability and Sediment Supply in my literature review regarding BANCS:

- Worksheet 5-8 (page 5-56)
- Figure 5-19 (page 5-57)
- Worksheet 5-9 (page 5-66)

Please let me know if the use of these Worksheets/Figures is ok or if you require more information on my part.

Thank you very much,

Rex S. Gamble, EIT

Rex, you have permission from Wildland Hydrology to use the BANCS model worksheets and figure from the WARSSS textbook with proper citation.

Good luck with you future endeavors,

Darcie

Hi Tess,

I got the permission of Wildland Hydrology to use BANCS worksheet/figures from WARSSS. Let me know if I have to do anything further regarding the graduate school.

Thank you,

I think you're in good shape. Other than working on the presentation and paper, I think you should relax.
