

“Open data” generated from scholarly research are often released as “CC0,” in which case the data qualifies as OER.

Scholarly books and articles may also qualify as OER, if released under a license which qualifies as OER.

How we (tend to) talk about Open Access and Open Educational Resources

OA and OER in Analog and Digital Environments

	Abbreviation / License name / Icon	Brief description -- official descriptions https://creativecommons.org/licenses		
In terms of freedom	Open Educational Resources	Public domain & CC0 U.S. Government works. Works published in the U.S. 95 or more years ago, or works clearly donated to the Public Domain.	<p>Permission to</p> <ul style="list-style-type: none"> Read Reuse Revise Retain Remix & Redistribute <p>Read, Reuse, Retain & Redistribute</p> <p>Read</p> <p>\$\$</p>	
		CC BY* Creative Commons Attribution Attribution required. Allows adaptation and redistribution. (the original open access license*)		
		CC BY SA Attribution-ShareAlike Same as CC BY + any derivatives must have the the same license.		
		CC BY NC Attribution-Noncommercial Same as CC BY + no primarily commercial use.		
		CC BY NC SA Attribution-Noncommercial-ShareAlike Same as CC BY + no primarily commercial use, + any derivatives must have the same license		
	Open Access	CC BY ND Attribution-NoDerivatives Attribution required. Only verbatim distribution allowed.		
		CC BY NC ND Attribution-Noncommercial-NoDerivatives Attribution required. No primarily commercial use. Only verbatim distribution allowed.		
		(c) Copyright (and free online) In copyright. No open license. All rights reserved. Free to read. All rights reserved.		
	Closed or Toll Access	(c) In Copyright and access restricted All rights reserved is the automatic, default setting for any copyrightable works without an open license. Access-restricted content is available with payment of a fee or with log-in credentials.		

Differentiating Between Open Access and Open Educational Resources is (c) Anita Walz. Licensed under a Creative Commons Attribution 4.0 license <https://creativecommons.org/licenses/by/4.0> arwalz@vt.edu
 Online at: <http://hdl.handle.net/10919/94422>

Note: Creative Commons licenses are the most common, but not the only open licenses.
 Creative Commons licenses never eliminate Fair Use.
