Subject: Permission to reprint a table

Dear Sir/Madam,

I'm completing a doctoral Dissertation at Virginia Tech entitled "Dynamic Braking Control for Accurate Train Braking Distance Estimation under Different Operating Conditions." I would like to get your permission to reproduce table 16-2-3 from AREMA manual for railway engineering Volume 4, Systems Management on page 16-2-6. I have stated the reference in my dissertation and I would like to inform you that reprinting the table is just for nonprofit educational purposes only.

Thank you,

Husain Ahmad
