Chapter 2

As an author of the article, I retained the right to include the article in a thesis or dissertation:

Quote from the Francis and Taylor website: the right to include an article in a thesis or dissertation that is not to be published commercially, provided that acknowledgement to prior publication in the relevant Taylor & Francis journal is made explicit;

<http://journalauthors.tandf.co.uk/preparation/copyright.asp>

Chapter 4 :

Materials Science and Engineering C 31(2011) 2-8

As an author of the article, I retained the right to include the article in a thesis or dissertation:

What rights do I retain as a journal author*?

- the right to make copies (print or electronic) of the journal article for your own personal use, including for your own classroom teaching use;
- the right to make copies and distribute copies of the journal article (including via e-mail) to research colleagues, for personal use by such colleagues for scholarly purposes*;
- the right to post a pre-print version of the journal article on Internet websites including electronic pre-print servers, and to retain indefinitely such version on such servers or sites for scholarly purposes* (with some exceptions such as The Lancet and Cell Press. See also our information on [electronic preprints](#) for a more detailed discussion on these points)*;
- the right to post a revised personal version of the text of the final journal article (to reflect changes made in the peer review process) on your personal or institutional website or server for scholarly purposes*, incorporating the complete citation and with a link to the Digital Object Identifier (DOI) of the article (but not in subject-oriented or centralized repositories or institutional repositories with mandates for systematic postings unless there is a specific agreement with the publisher. [Click here](#) for further information);
- the right to present the journal article at a meeting or conference and to distribute copies of such paper or article to the delegates attending the meeting;
- for your employer, if the journal article is a 'work for hire', made within the scope of the author's employment, the right to use all or part of the information in (any version of) the journal article for other intra-company use (e.g. training);
- patent and trademark rights and rights to any process or procedure described in the journal article;
- **the right to include the journal article, in full or in part, in a thesis or dissertation;**
- the right to use the journal article or any part thereof in a printed compilation of your works, such as collected writings or lecture notes (subsequent to publication of the article in the journal); and
- the right to prepare other derivative works, to extend the journal article into book-length form, or to otherwise re-use portions or excerpts in other works, with full acknowledgement of its original publication in the journal.
