Virginia Tech ETD Fair Use Analysis Results

This is not a replacement for professional legal advice but an effort to assist you in making a sound decision.

Name: Kanwar Bharat Singh

Description of item under review for fair use: Fig. 4.6: Tire and Brush model Source: C.S. Ahn, Robust Estimation of Road Friction Coefficient for Vehicle Active Safety Systems, in: Department of Mechanical Engineering, The University of Michigan, Ann Arbor, 2011.

Report generated on: 01-25-2012 at : 17:36:23

Based on the information you provided:

Factor 1

Your consideration of the purpose and character of your use of the copyright work weighs: *in favor of fair use*

Factor 2

Your consideration of the nature of the copyrighted work you used weighs: *in favor of fair use*

Factor 3

Your consideration of the amount and substantiality of your use of the copyrighted work weighs: *in favor of fair use*

Factor 4

Your consideration of the effect or potential effect on the market after your use of the copyrighted work weighs: *in favor of fair use*

Based on the information you provided, your use of the copyrighted work weighs: *in favor of fair use*
