

August 20, 2009

Dr. Sayangdev Naha,

I am completing a master's thesis at Virginia Tech entitled "Electrical Power Generation in Microbial Fuel Cells Using Carbon Nanostructure Enhanced Anodes." I would like your permission to reprint in my thesis excerpts from your doctoral dissertation:

Naha, S., *Growth Model, Synthesis of Carbon Nanostructures and Alteration of Surface Properties Using Them*, in *Department of Engineering Science and Mechanics*. 2008, Virginia Polytechnic Institute and State University: Blacksburg, VA. p.135.

The images to be reproduced are from **Figure 3.1.1: Experimental setup for flame synthesis of carbon nanostructures**

The requested permission extends to any future revisions and editions of my thesis, including non-exclusive world rights in all languages, and to the prospective publication of my thesis. These rights will in no way restrict republication of the material in any other form by you or by others authorized by you. Your signing of this letter will also confirm that you own the copyright to the above-described material.

If these arrangements meet with your approval, please sign this letter where indicated below. Thank you very much.

Sincerely,

Jennifer Lamp

PERMISSION GRANTED FOR THE USE REQUESTED ABOVE:
