

List of Tables

Table 2.1 – Expected relative effects of dopamine and dobutamine on various adrenergic receptors at different dose rates.....	59
Table 2.2 – Locations and primary effects of various adrenergic receptors.....	60
Table 2.3 – Expected relative changes in hemodynamic parameters in response to various dose rates of dopamine and dobutamine.....	61
Table 3.1 – CO as determined by thermodilution in three standing subjects.....	98
Table 3.2 – CO as determined by M-mode echocardiography in three standing subjects.....	98
Table 4.1 - CO as determined by thermodilution in five anesthetized subjects.....	117
Table 6.1 – Coefficients of variation for M-mode echocardiographically measured CO, LVIDd, and LVIDs, for the present study and previously published results.....	157
