Dear Mr. Burgoyne,

My name is Razvan Cojocaru and I am a graduate student at Virginia Tech. We have recently met at the Research in Progress session at the ACI Convention in Dallas, TX, where I presented on the stability of beams during lifting. I would like to request your permission to reproduce Figure 6 from your paper: "Stability Design of Long Precast Concrete Beams." I have attached the figure I would like to include in my master's thesis report, which I will cite accordingly.

Thank you for your time.

Sincerely,  
Razvan Cojocaru

No problem - go ahead. I'd be interested in seeing a pdf copy of your thesis, in due course.

Good Luck

Chris Burgoyne

Dr. Mast,

I would like to ask for your permission to use Figure 1 from your PCI Journal paper "Lateral Stability of Long Prestressed Concrete Beams, Part I." I would like to include it in my thesis, and I will cite it accordingly.

Thank you for your time.

Sincerely,  
Razvan Cojocaru
