INTERPRETATION OF 1962 STATISTICAL REPORT

Columns

A, B, C Agents who devote more than one-half of their time to a line of work should report ALL of their work in the appropriate column.

Consumer marketing agents employed with A.M.A. funds are to report in column C. Consumer marketing agents not paid from A.M.A. funds will report in column C if their work is oriented to marketing efficiency or in column A if their work is oriented to family satisfaction.

Area Extension agents will report in their respective county column, A, B, or C, or the State staff column E, depending upon whether they get their direction and supervision from the district supervisor or from the State specialist who serves as project leader.

A, B, C, D When two or more agents engaged in the same line of work participate in the same Extension activity it should be reported only once in their respective column and only once in the county total.

When agents, engaged in different lines of work, participate in the same Extension activity, the information is reported once in each of their respective columns and only once in the county total (column D).

E Administrative, supervisory, and subject matter staff members will report their activities in this column as follows:

County activities: When in a county most activities participated in by the State staff will have been arranged for and be reported by the county staff. Only those activities a State staff member initiates and participates in without county staff assistance are to be reported by the State workers.

Multi-County Activities: State staff will report State-wide, regional, and/or district activities they are responsible for holding, which in the normal course of events would not be reported by the county staff.

Headquarter Activities: State staff will report only activities in which program information is given to or received from Extension clientele such as representatives of breed associations, marketing organizations, industrial concerns, magazines, papers, radio and TV stations, public and private organizations and agencies, individual farmers, homemakers, leaders and others with whom the State staff may work directly. Item 4-b is an exception.

When two or more members of the State staff participate in the same activity the person having primary responsibility for the activity should report it. When of equal responsibility they should decide which one will report. The others may show it in parentheses () on their monthly report, thus indicating their participation, but it is not to be included in columns E and F.

Telephone calls, office visits, conferences, meetings, etc. with other Extension, research and teaching personnel on the campus, and of a personal nature are not to be reported.

Information Specialists: Time spent by information specialists to help subject matter specialists and county workers should be charged to that phase of subject matter.

Trainers: Trainers in subject matter per se report time under appropriate subject matter headings. The Extension Forester holds a training session for County Agents. The Forester reports time spent in preparing and in giving the training under item 15. The County Agent reports under item 46. Trainers in other than subject matter will report their time under item 47.

Item

2. An office call is a visit in person by an individual or a group in which information is given or received.
3. Telephone calls may be either incoming or outgoing.

Items relating to notice of meeting only and news items prepared by local leaders should not be reported.
- 4b. Include here news releases prepared in State office and localized in county. The same release localized and used in 18 counties would be reported once in column E and once in each of the 18 counties by the agent using it. Column F is not to be filled in.
5. A broadcast is a single presentation on the air. It may be given in person or by transcription. An Extension worker, does not have to appear on the program so long as he is responsible for its preparation. Information given to station announcers or writers and used as the basis for a broadcast is also to be reported.
6. Report number of bulletins, circulars, leaflets, and other materials related to subject matter and organization aspects of Extension work. Include such materials prepared in the county office as well as those of State and Federal origin. Commercial publications are not to be counted unless they are recommended by the State Office. See item 7.
7. Circular or commodity letters are usually prepared for one item distribution in contrast to subject matter material prepared for general distribution over a period of time which is reported in item 6. Report number of different letters written and not copies distributed. A mimeographed letter announcing a meeting would be reported as one letter.

8. At leader training meetings, project leaders, local leaders, or committeemen are trained to carry on Extension activities. See item 53.
- 8b. Includes work done through the formally organized 4-H Club program, young men and women's work (YMW) and work with other youth.
9. Includes general educational meetings, method-demonstration meetings, meetings held at result demonstrations, community-organized meetings, tours, achievement days, encampments, and all other meetings (except those for the training of local leaders) that you were responsible for holding. Also, includes meetings that you did not arrange, but attended and actively participated in for the specific purpose of advancing the Extension program. Do not include meetings held by local leaders that you attended for observation or public relations purposes only. Such meetings should be reported under item 10. Do not report county, district, or state conferences of Extension personnel.

In reporting attendance at a meeting count the total number of different persons.

- 9b. In addition to the 4-H Club and YMW meetings you held or participated in, similar Extension meetings for boys and girls who are not enrolled in 4-H Club work should be included.
