

Patrick J. Neyman

pneyman@vt.edu

509 Jane Randolph St., Forest, VA 24551

(540) 818-6599

EDUCATION: **Ph. D. Macromolecular Science & Engineering (Physics), July 2004**

Virginia Polytechnic Institute & State University, J. R. Heflin, advisor
Research: Linear and nonlinear optics of nano-scale multilayer polymer & hybrid-polymer films,
Novel development and investigation techniques, Internal structure determination,
Electro-optic device development

M. S. Materials Science & Engineering, May 2002

Virginia Polytechnic Institute & State University, J. R. Heflin, advisor
Research: Nonlinear optics of nanometer scale multilayer polymer films,
Film formation kinetics, Morphological modeling, Structure control

B. S. Physics, May 1999

Virginia Polytechnic Institute & State University
Minor in Mathematics, Emphasis in Computer Science

ACADEMIC HONORS:

- *Sigma Pi Sigma* Honor Society of the American Institute of Physics (1999)
- *Phi Theta Kappa* Honor Society (1996)
- Lubna Ijaz Scholarship for Commitment and Service to Physics (1998)

SELECTED EXPERIENCE:

1997 – Present: **Nonlinear Optics Laboratory, Department of Physics, Virginia Tech, Blacksburg, Virginia**

- Operated and maintained nanosecond and picosecond Nd:YAG laser systems
- Designed automated apparatuses and software for data acquisition, using Borland C
- Designed variable angle, variable polarization spectrophotometer for linear dichroism
- Programmed data analysis and 3-D modeling software, using Mathematica 4.0 with C++
- Analyzed and fabricated nanoscale self-assembled polymer films for electro-optic applications
- Fabricated photo-diodes and light emitting diodes using fullerene-polymer thin films
- Designed wet labs for manual and automated self-assembled film fabrication

1999, Summer: **Luna Innovations, Blacksburg, Virginia**

- Fabricated and characterized thin films for electro-optic applications

1997 – 1998: **Department of Computer Science, Virginia Tech, Blacksburg, Virginia**

- Designed Physics web site for the *Networked Infrastructure for Education* project

1990 – 1993: **Special Products and Integrated Services, Framatome, Lynchburg, Virginia** Non-Destructive Evaluation (NDE): Eddy-Current Testing (ET)

- Certified ET Level II: *American Society for Non-Destructive Testing* SNT-TC-1A
- Certified ET Level I: *Canadian General Standards Board* CAN/CGSB-48.9712
- Inspected thin walled tubing in steam generators at several nuclear power plants
- Directly Supervised by the *United States Nuclear Regulatory Commission* and the *Canadian Ministry of Natural Resources*

MILITARY: **82nd Airborne Division, U. S. Army, Fort Bragg, North Carolina** Squad Leader, Airborne Infantry, 1986-1990, 1991

- Participated in Operation Desert Storm and Operation Just Cause
- Managed, trained and directed work assignments for nine personnel
- Graduated with Honors from the Non-Commissioned Officer Academy

509 Jane Randolph St., Forest, VA 24551

(540) 818-6599

RELATED EXPERIENCE:

Graduate Instructing Experience:

- *Optics Laboratory*, Senior Physics
- *Electronics Laboratory*, Junior Physics
- *Quantum and Solid State Physics*, Junior Physics
- *Astrophysics*, Junior Physics
- *Electricity and Magnetism Laboratory*, Sophomore Physics
- *Mechanics Laboratory*, Sophomore Physics

Relevant Graduate Coursework:

Adhesion Science, Polymer Viscoelasticity, Polymer Fracture and Deformation, Macromolecular Synthesis and Characterization Laboratory, X-Ray Diffraction, Mechanical Behavior of Materials, Advanced Materials Thermodynamics, Nonlinear Optics, Quantum Electronics, Quantum Mechanics, Electrodynamics

Selected Equipment Proficiency:

- Nd:YAG laser systems, Spectrometers, Spectrophotometers, Pyrometers, Electrometers, Lock-in amplifiers, Ellipsometers, DMA, DTMA, Instron Machines, Vacuum deposition systems, Spin coating systems, ROGER and COBRA manipulators, MIZ-18 and MIZ-24 data acquisition systems
- Optical system design, Photo-diode evaluation system design, Electronic evaluation system design, CAMAC system design, LAN design

Selected Software and Programming Language Proficiency:

- C, C++, Visual C++, UNIX, HTML, BASIC
- Excel, Word, PowerPoint, Acrobat, Photoshop, Premier, CorelDraw
- Mathematica, Origin, Psi Plot, Table Curve, Jasco Spectra Manager & Standard Analysis, CS ChemDraw, CS Chem3D
- CAMAC, ZETEC SM-10 and SM-20 acquisition and analysis software

MEMBERSHIPS:

American Chemical Society, since 2000

Materials Research Society, since 1999

Sigma Pi Sigma, since 1998

Phi Theta Kappa, since 1996

Society of Physics Students, 1987-2000

82nd Airborne Division Association, 1987-1991

Association of the United States Army, 1986-1991

DISTANCE LEARNING:

Outreach Program, Virginia Tech, 1997-1999

Mentored rural high-school students in Physics

REFEREED AND INVITED PRESENTATIONS:

1. **Control of Second-Order Nonlinear Optical Susceptibility in Ionically Self-Assembled Films by pH and Ionic Strength,**
Molecular Electronics, Materials Research Society Fall Meeting
(Boston, MA, 30 November 1999).
2. **Second-Order Nonlinear Optical Properties of Ionically Self-Assembled Monolayer (ISAM) Films,**
Condensed Matter Seminar, Department of Physics, Virginia Tech
(Blacksburg, VA, 10 November 1999) (*Invited*).
3. **Second-Order Nonlinear Optical Properties of Ionically Self-Assembled Films Containing Dianionic Chromophores,**
Polymer Materials, American Chemical Society
(Washington D. C., 20 August 2000).
4. **Characterization of Ionically Self-Assembled Monolayer (ISAM) Films by Second-Order Nonlinear Optical Susceptibility,**
Weekly Seminar, Department of Materials Science and Engineering, Virginia Tech
(Blacksburg, VA, 27 October 2000) (*Invited*).
5. **Enhanced Second-Order Nonlinear Optical Susceptibilities in Ionically Self-Assembled Films Incorporating Dianionic Molecules,**
Organic Photonic Materials, Materials Research Society Fall Meeting
(Boston, MA, 29 November 2000).
6. **Second Order Nonlinear Optical Responses of Ionically Self-Assembled Films Containing Dianionic Chromophores,**
Linear and Nonlinear Optics of Organic Materials, SPIE
(San Diego, CA, 2 August 2001) (*Invited*).
7. **Novel Polar Self-Assembled Multilayers for Second-Order Nonlinear Optics,**
Organic Optoelectronic Materials, Processing, and Devices,
Materials Research Society Fall Meeting
(Boston, MA, 27 November 2001).
8. **Novel Hybrid Covalent / Ionic Self-Assembly Technique for Improved Second-Order Nonlinear Optical Films,**
Polymer Chemistry, American Chemical Society
(Boston, MA, 20 August 2002).
