EXTENSION WORK

NARRATIVE REPORT OF DEMONSTRATION WORK

MAY 1st. 1923 to DECEMBER 1st. 1923

H. P. Marshall, County Agent,
Bland County.

I came to Bland county May 1st. 1923. Until this time there had been no Agent in the county for two or three years, therefore no Extension work was being carried on. Due to getting in the county rather late it made it very hard to get much demonstration work done for this year.

As the live stock industry in the county is by far the most important I decided to work principally along live stock lines for this year. This was carried on through Boys and Girls Club work, the County Agricultural Show, replacement of Scrub Sires with Pure-breds, and Vaccinating, treatment of Animal Disease.

In addition to the live stock work a Poultry Culling Campaign was put on, and demonstrations were started with wheat and Alfalfa.

Boys and Girls Club work.

As stated before I did not come to the county until May 1st which practically made it impossible to start any club work except a pig club.

The only way to get this work started was through the school and only three schools in the county were running. Two visits were made to each school to try to interest the boys and girls in a breeding pig club. No club work had ever been carried on in two of the schools and as examinations were drawing near no interest was taken in club work. The other school, The Bland High School had had a pig club before so ten members were enrolled in this school.

Pure bred pigs of the Poland-China and Duroc breeds were secured for the members. These pigs were started on feed about June 1st and fed until October 18th at which time they were exhibited at the County Agricultural Show. All the members fed their pigs until the end of the contest, all pigs were exhibited, and six members turned in

complete record books.

The boys and girls took a great deal of interest in this work and took very good care of their pigs. The greatest trouble was keeping them from over feeding and getting the pigs too fat. Next year the number of pure bred pigs fed will be greatly increased.

County Agricultural Show.

There had not been an Agricultural Show of any kind held in the county for about three years. After talking to some of the breeders of pure bred livestock who were very much interested in having a show I decided to devote a good deal of time to working up a county show.

The only available place to hold a show was in the Court House yard, and the only way it could be financed was by subscription. With the assistance of the County Clerk and Commonwealths Attorney I got the Board of Supervisors to appropriate one hundred dollars. The two banks in the county gave seventy five, and the business men of Bland contributed fifty, making a total of two hundred and twenty five dollars.

A catalogue was worked up, arranging classes for pure bred beef cattle, hogs, sheep, poultry, Agricultural products and a special class for the pig club. Premiums were awarded in all classes, more attention being paid to cattle, hogs and sheep.

All the breeders of pure bred livestock took a lot of interest in this show and every class was filled. A number of farmers exhibited corn, wheat, oats and fruit.

A large crowd turned out for the show. One of the Bland merchants said it was the largest crowd he had seen in Bland. Every one was well pleased with the exhibits and some of the ladies are already planning a domestic science department for another year. Mr. C. A. Crabtree, member of the Board of Supervisors told me that he had learned a great deal about beef cattle by watching a

Keen judge them

This show will undoubtedly do a lot of good toward improving the quality of livestock in the county and also in the better care livestock. Several breeders who exhibited have said they would have their stock in much better condition for another year.

Replacement of Scrub Sires with Pure Breds

While visiting the farmers through the county I would boost purebreds at every opportunity. Every farmer visited was asked whether he kept a bull and if so was it purebred; the same was done with regard to hogs and sheep. Those who kept grade sires were shown the advantages of purebreds and every argument possible used to get them dispose of the grades and use purebreds.

In this way three purebred bulls have been placed with farmers who never kept a purebred bull. Three farmers bought purebred rams and two were started with pure bred ewes. Several farmers have disposed of grade bulls and have agreed to buy purebreds in the spring. Two herds of purebred Hereford cattle will also be started next spring.

Vaccinating, Treatment of Animal Disease.

As the people expected a lot of veterinary work from the County Agent I decided to do as much of this work as I could, not voluntarily, but only when called on. During the past seven months fifty four animals have been treated for disease, including animals castrated, and approximately four hundred cattle have been vaccinated for blackleg. While this work is a good deal of trouble, I find that it puts me in closer touch with the people. After I have done some work of this kind for a man I can do more toward getting him interested in in whatever I may want him to do.

Poultry Culling Campaign.

In August a poultry culling campaign was put on covering the entire county. Eight demonstrations were held, arranged so that each farmer would be within a few miles of a demonstration. Three hundred circulars were sent out advertising these demonstrations, and a good many personal visits were made to interest the people in this work.

There was only an average attendance of six at the demonstrations, but this was due largely to the fact that a good many of the people did not know what poultry culling meant. Those who attended were very much interested. Since this campaign I have had several calls to assist in poultry culling and next year there will be a lot more interest taken in the work.

Wheat and Alfalfa Demonstrations

During August and September six demonstrations were started with wheat and two with alfalfa.

Up until this year no certified wheat had been grown in the county. Six of the best farmers in the county sowed certified V. P. I. No. 181 wheat this fall, ranging from two to five acres each. Four of these used a complete, home mixed fertilizer, the other two using only acid phosphate as they had used lime and grown legumes on the land for several years. One farmer who had used factory mixed fertilizer told me that he had saved eight dollars per ton by mixing his fertilizer this year. All of these men put their land in fine shape and are going to do their best to produce certified wheat.

Two alfalfa demonstrations were started in August, Ground limestone was used on these demonstrations and the rate of three tons to the acre, good high quality seed was used at the rate of twenty pounds to the acre, and was inoculated with pure culture. Both demonstrators have a very good stand of alfalfa and are very much pleased with the results so far.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS
SPECIAL EDITION

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, negro agent, etc., reporting on their respective lines of work.

State Virginia County Bland
Report of Hilary P. Marshall County Agricultural Agent.
From May 1st 1923 to December 1st 1923.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

State or District Supervisor.

Extension Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results secured (including assistance rendered by subject-matter specialists). The making of such a report is of great value to the county extension agent and the county people in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support. This blank form covers simply the statistical phases of the report, and should be supplemented by a full report in narrative form.

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results secured under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—distinctive features.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.
 - (a) Soils.
 - (b) Farm crops
 - (c) Horticulture (including diseases and insects).
 - (d) Forestry
 - (e) Animal husbandry
 - (f) Dairy husbandry (including diseases and pests).
 - (g) Poultry husbandry.
 - (h) Rural engineering.
 - (i) Rodents, predatory animals, and birds.
 - (j) Agricultural economics—including farm management, marketing, etc.
 - (k) Foods and nutrition.
 - (l) Clothing and millinery.
 - (m) Home health and sanitation.
 - (n) Household management and home furnishings.
 - (o) Community activities—other than those included under subject-matter headings.
 - (p) Miscellaneous.
- V. Outlook and recommendations, including suggestive program of work for next year.
- VI. Summary of activities and accomplishments in paragraph form, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if it is desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations may be of methods or of results.
Under method demonstrations include lecture demonstrations, practicums, etc., such as demonstrations of canning methods, home-mixing fertilizers, poultry culling, dress-form making, and the like, all involving short periods of time.
Under result demonstrations include demonstrations in which a substantial period of time is involved, records of results kept, and comparisons made, as in a child-feeding demonstration, corn-culture demonstration, pasture-improvement demonstration, and the like.
5. A DEMONSTRATOR is an adult or junior who, under the direction of the extension service, undertakes to show in his community by example the practical application of an established fact, and who keeps records and reports on the same.
6. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
7. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions in advancing some phase of the local program of extension work.
8. A COMMUNITY CLUB is an organization of men, women, boys, and girls to further community interests and to promote community recreation.
9. AN OFFICE CALL is a visit of a telephone call by a farmer, or other person, seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
10. A DEMONSTRATION MEETING is a meeting held to give, inspect, or further a demonstration.
11. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the extension agent in office in connection with extension work.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.
17. A FARMERS' INSTITUTE is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN EXTENSION OR MOVABLE SCHOOL is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. A SHORT COURSE differs from an extension school in that it is held at the college or other educational institution and usually for a longer period of time.
19. RECORDS consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.

4

GENERAL ACTIVITIES.

Report only results of extension activities that are supported by records.

1. List below the names, titles, and periods of service of all county extension agents whose work is included in this report.

Hilary Marshall County Agent May 1923 - Dec 1924
(Name.) (Title.) (Period of service.)

2. Total number of communities in county where extension work should be conducted (a) Men 10 (b) Women 10
3. Number of communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 8
4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program (a) Adult work Men 8 Women 8 (b) Junior work Boys 8 Girls 8
5. What is the name of the county organization cooperating in extension work. _____

	Men.	Boys.	Women.	Girls.	Boys and girls.	Community.
6. Number of clubs carrying on extension work	-	1	-	1	1	Blair
7. Membership		8		10	10	

8. Total number of farm visits made in conducting extension work 493
9. Number of different farms visited 97
10. Total number of home visits made in conducting extension work -
11. Number of different homes visited -
12. Number of office calls* relating to extension work 98
13. Number of days agent spent in office 33
14. Number of days spent in field 122
15. Number of individual letters written 167
16. Number of different circular letters prepared and sent out 3
17. Total number of copies of such circular letters 570
18. Number of extension articles* written by agent and published in local papers 8
19. Number of community buildings established -
20. Number of rest rooms provided for use of rural people -
21. Number of fairs at which extension exhibits were made: Community _____ County 1

144. Number of members completing					5	—	144
(a) Boys.	3	—	—	—	—	—	
(b) Girls.	—	—	—	—	1	—	
145. Number of animals involved in club work completed.	—	—	—	—	7	—	145
146. Total value of animals raised by club members.	—	—	—	—	150	—	146
147. Total value of products produced by club members.	—	—	—	—	104	—	147
148. Total cost of such animals and products.	—	—	—	—	164	—	148
149. Total* number of farms influenced by adult or junior extension work to adopt better practices, relative to live-stock production (include demonstrations).	—	15	75	40	10	10	149
150. Number of animals involved in question 149.	—	40	600	800	50	—	150
151. Number of farms assisted in securing pure-bred sires.	—	—	3	2	1	—	151
152. Number of pure-bred sires secured.	—	—	3	2	1	—	152
153. Number of farms assisted in securing pure-bred females.	—	—	—	2	—	—	153
154. Number of pure-bred females secured.	—	—	—	4	—	—	154
155. Number of farms securing pure-bred animals for the first time.	—	—	2	2	—	—	155
156. Number of farms culling flocks or herds.	—	—	—	2	—	10	156
157. Number of stallion, bull, ram, or boar circles, clubs, or associations organized during the year.	—	—	—	—	—	—	157
158. Number of members in preceding circles, clubs, etc.	—	—	—	—	—	—	158

* See footnote on page 7.

9-5225

LIVE STOCK—Continued.

Report only results of extension activities that are supported by records.

Item.	(4)	(5)	(6)	(7)	(8)	(9)	
	Horses and mules.	Dairy cattle.	Draft cattle.	Sheep.	Pigs.	Poultry.	
159. Number of breed associations or clubs organized during the year.	—	—	—	—	—	—	159
160. Number of members in these associations or clubs.	—	—	—	—	—	—	160
161. Number of cow-testing associations organized or reorganized during the year.	—	—	—	—	—	—	161
162. Number of members in these associations.	—	—	—	—	—	—	162
163. Number of farms not in associations testing cows for production.	—	—	—	—	—	—	163
164. Number of cows under test by such associations and individual farms.	—	—	—	—	—	—	164
165. Number of homes assisted in the making of butter and cheese.	—	—	—	—	—	—	165
166. Number of farmers feeding better balanced rations.	—	—	—	—	10	6	166
167. Number of farmers controlling insect pests.	—	—	—	—	—	—	167
168. Number of farmers testing animals for tuberculosis.	—	15	—	—	—	—	168
169. Number of animals tested.	—	40	—	—	—	—	169
170. Number of herds accredited this year for the first time.	—	—	—	—	—	—	170
171. Number of farmers vaccinating animals for blackleg.	—	—	75	—	—	—	171
172. Number of animals vaccinated.	—	—	600	—	—	—	172
173. Number of farmers vaccinating animals for cholera.	—	—	—	—	3	—	173
174. Number of animals vaccinated.	—	—	—	—	50	—	174
175. Number of farmers controlling other live-stock diseases.	—	—	50	40	—	—	175
176. Number of animals involved in question 175.	—	—	400	800	—	—	176
[Use space below to include other important data relating to live stock.]	—	—	—	—	—	—	

RURAL ENGINEERING.

Report only results of extension activities that are supported by records.

177. Number of result demonstrations started or under way	_____	177
178. Number of such demonstrations completed or carried through the year	_____	178
179. Acres or other units involved in those completed demonstrations	_____	179
180. Total profit or saving on demonstrations resulting from better practices	_____	180
181. Number of farms installing drainage systems	_____	181
182. Acres drained	_____	182
183. Number of farms installing irrigation systems	_____	183
184. Acres irrigated	_____	184
185. Number of farms constructing terraces or soil dams	_____	185
186. Acres on which soil erosion was so prevented	_____	186
187. Number of dwellings constructed according to plans furnished	_____	187
188. Number of dwellings remodeled according to plans furnished	_____	188
189. Number of sewage disposal systems installed	_____	189
190. Number of water systems installed	_____	190
191. Number of heating systems installed	_____	191
192. Number of lighting systems installed	_____	192
193. Number of farms on which buildings other than dwellings were constructed or remodeled according to plans furnished	_____	193
194. Number of buildings involved in preceding question	(a) Barns _____	194
	(b) Hog houses _____	
	(c) Poultry houses _____	
	(d) Silos _____	
	(e) Other _____	
195. Number of farms assisted in the care and operation of machinery (tractors, power sprayers, milking machines, etc.)	_____	195
196. Number of farms clearing land	_____	196
197. Acres of land so cleared	_____	197

[Use space below to include other important data relating to rural engineering.]

RODENTS AND MISCELLANEOUS* INSECT AND ANIMAL PESTS.

Report only results of extension activities that are supported by records.

Item.	Rodents.	Other animal pests.†	Cran- floppers.	Other insects.
198. Number of result demonstrations started or under way	—	—	—	—
199. Number of such demonstrations completed or carried through the year	—	—	—	—
200. Number of acres in these completed demonstrations	—	—	—	—
201. Total saving or profit on demonstrations resulting from better practices	—	—	—	—
202. Total number of farms adopting control measures	—	—	—	—
203. Number of acres involved	—	—	—	—
204. Number of pounds of poison bait used	—	—	—	—
[Use space below to include other important data relating to rodents and miscellaneous insect and animal pests.]				

AGRICULTURAL ECONOMICS.

Report only results of extension activities that are supported by records.

FARM MANAGEMENT.

205. Number of farm account books distributed	—	—	—	—
206. Number of farmers keeping records in such account books throughout the year	—	—	—	—
207. Number of farmers assisted in summarizing and interpreting their accounts	—	—	—	—
208. Number of farmers making changes in their business as result of keeping accounts	—	—	—	—
209. Number of other farmers adopting cropping, live-stock, or complete farming systems according to recommendations	—	—	—	—
210. Number of boys' and girls' farm account clubs	—	—	—	—
211. Number of members enrolled	(a) Boys. —	(b) Girls. —	—	—
212. Number of members completing	(a) Boys. —	(b) Girls. —	—	—
213. Number of farmers advised relative to loans	—	—	—	—
214. Number of farm management and farm account schools held	—	—	—	—
215. Number of farmers assisted in keeping cost of production records	—	—	—	—
LABOR.				
216. Number of farmers making better use of labor	—	—	—	—
217. Number of farmers securing tractors, sprayers, milking machines, or other machinery to economize labor	—	—	—	—

* Do not include work reported under "Crop" and "Live Stock" headings.

† Indicate by name.

6-4075

AGRICULTURAL ECONOMICS—Continued.

Report only results of extension activities that are supported by records.

CREDIT.

218. Number of farm loan or other credit associations organized with assistance of extension service. _____ 218
219. Membership in above associations. _____ 219
220. Number of other farmers assisted in securing credit. _____ 220

MARKETING.

221. List below the cooperative marketing associations organized during the year upon suggestion or with counsel of the extension service. _____ 221

Name of association.	Number of members.	Supplies and products handled.	Supplies purchased.		Products sold.	
			Value.	Saving.	Value.	Profit.
<i>Mechanizing Farmers Club 25</i>		<i>One Can Fertilizer</i>	<i>\$ 6.00</i>	<i>1.00</i>		
Total.						

222. Number of other cooperative marketing associations in the county with which the extension service consulted or advised. _____ 222
223. Number of members in such associations. _____ 223
224. Total purchases of supplies by associations included in question 223: (a) Value _____ \$ _____ 224
(b) Saving _____ \$ _____
225. Total sales of products by associations included in question 223: (a) Value _____ \$ _____ 225
(b) Profit _____ \$ _____
226. Number of farmers and housewives assisted by extension service in buying and selling through other channels than cooperative associations. _____ 226
227. Total purchases of supplies by farmers and housewives included in question 226: (a) Value _____ \$ _____ 227
(b) Saving _____ \$ _____
228. Total sales of products by farmers and housewives included in question 226: (a) Value _____ \$ _____ 228
(b) Profit _____ \$ _____
229. Number of farms grading or standardizing products. _____ 229

[Use space below to include other important information relating to agricultural economics.]

MISCELLANEOUS.

Report only results of extension activities that are supported by records.

Use this page to include work on any other agricultural and home economic project not included in the preceding pages, such as bookkeeping, basket making, and similar work, i. e., any other information that can be reported statistically and that will help to give a complete account of the year's work.

Item.	Q1*	Q2*	Q3*	Q4*	TOT*
305. Number of adult result demonstrations started or under way	—	—	—	—	—
306. Number of such demonstrations completed or carried through the year	—	—	—	—	—
307. Number of units in those completed demonstrations	—	—	—	—	—
308. Increase per unit on demonstrations due to better practices	—	—	—	—	—
309. Number of boys' and girls' clubs	—	—	—	—	—
310. Number of members enrolled	—	—	—	—	—
311. Number of members completing	—	—	—	—	—
312. Number of units involved in club work completed	—	—	—	—	—
313. Total value of products grown or made by club members	—	—	—	—	—
314. Total cost of products grown or made by club members	—	—	—	—	—
315. Number of farms or homes influenced by adult or junior extension work to adopt better practices	—	—	—	—	—
316. Total units involved in question 315.	—	—	—	—	—
[Use space below to include other important data relating to miscellaneous work.]					
<i>Organization of one local Farmer Club</i>					
<i>400 cattle were vaccinated for Blackleg</i>					
<i>20 hogs were vaccinated for Ch. abys.</i>					
<i>54 animals were treated for disease.</i>					

HOME DEMONSTRATION WORK.

FOODS AND NUTRITION.

Report only results of extension activities that are supported by funds.

226.1. Number of members enrolled in food and nutrition work	(a) Women	0	226.1
	(b) Girls	0	

FOOD SELECTION.

Item.	Women.		Girls.	
220. Number of result demonstrations started or under way.	0	0		220
221. Number of such demonstrations completed or carried through the year.	0	0		221
221.1. Number of method demonstrations.	0	0		221.1
222. Total* number of homes influenced by extension service to serve better selected food (include demonstrators).	0	0		222
223. Number of homes using more fruits in the diet.	0	0		223
224. Number of homes using more green vegetables in the diet.	0	0		224
225. Number of homes using more milk and other dairy products in the diet.	0	0		225
227. Number of homes using more poultry products in the diet.	0	0		227
228. Number of homes using more unrefined cereal products in the diet.	0	0		228

[Use space below to include other important data relating to food selection.]
