Narrative Report
Henry County
Virginia

Home Bureau

The annual rat campaign which lasted one week last year, & extended thru the month of March this year, by special request of the people of Henry county. It was a marked success. More than 15,000 rats were killed in the campaign. A special appropriation was made of fifty dollars by the County board of supervisors. More than two-thirds population of Henry county were reached either by letter or news papers. The health officer, county agent, and other organizations assisted in this work.

CLUB WORK- Some of the results of club work was brought before the public by the exhibits put on at the Henry county fair. (The Henry county fair grew out of the club show we held last year.) These exhibits consisted of work done in canning, ~~and~~ sewing, bread and poultry. The general comment on this work was that it was not only the best exhibit at the fair but rivaled any in the state, how ever there is still room for improvement in this work. The bread club work has been most interesting and I feel very helpful, although our county only won third prize in the District Bread judging contest.

ANNUAL RALLY DAY, was held this year just out side of the County Seat, on one of the big farms, was very well attended and essential of the cooperative friends of Martinsville were invited out for a picnic dinner. Short addresses were heard, then games and contests of all kinds were put on by the club members. The idea for having this rally day was to promote a future County organization of the county boys and girls. This is yet to be obtained.

STATE SHORT COURSE. Great interest was manifested, not only in the boys and girls, but the parents of the children in the short course at Blacksburg. Each club raised money to send two delegates, each club was represented and scholarships were given to the amount of \$102.00 by the Ladies Clubs of Martinsville, proving there interest in the success of the work. The number of boys and girls taking these courses were thirty three. This would have been an impossibility a year ago.

HOT DISH. During two schools have adopted the hot dish system, club girls preparing and serving the dish. The Club Women of Martinsville were interested enough in this work to give annual white caps for serving the children. This is a needed work, and I expect to put quite a bit of time on it, and in this way, convert other communities to this system.

WOMENS WORK. This has been to a certain extent limited due to the fact other things have claimed my attention. But during the year we have had Steam pressure demonstrations etc, but at present we only have three cookers in the Co. due to the first cost. Recently we have had Culling and dress form demonstrations, there was keen interest shown in both of these, and, I have had more calls to call than I could answer. We have one Community who organized a Home Demo. Club-their work will be the Hot Dish in the school etc.

The best thing I have done in the Co. this year to my mind is to see to show the women of the Co. that they needed an organization of

some kind to get the most possible out of Home Demon. Work. So they have now organized into what is known as The Henry County Home Improvement Committee. This Committee is made up of women from all Dist. in the Co. With these women I hope to do some real work in each district next year. They are to have a meeting the last of January and at this meeting we will take up plans etc. One thing will be the MILK SITUATION, that is very serious in my Co. the Mothers do not realize its value as a food.

Washington, D. C.

Due January 1 192_

ANNUAL REPORT OF HOME DEMONSTRATION AGENT.

of

HENRY
County.

MAY E. CAMPBELL
County Home Demonstration Agent.

WARTINSVILLE Va.
Post Office State

NOV. 1922
Date.

Approved:

Date.

State Home Demonstration Agent.

Approved and forwarded:

Date.

Director.

Form No. 753.

WJEH-12

To the County Home Demonstration Agents:

It is very important to send in accurate and complete Annual Reports. The future success and support of the Home Demonstration Work depends upon your activities now. It will aid the cooperating authorities greatly to have adequate records of what has been done. The law requires such reports and the lawmakers are greatly interested in the development of all of the extension work.

The statistical part of the Home Demonstration Work has been simplified and condensed. It is hoped that it will be easier for you to make a full and graphic showing of the achievements of your women and girls. Of course it is not expected that every agent will be conducting demonstrations upon every phase of work every year. Do not hesitate, therefore, to leave spaces blank where you have no work being done. On the other hand, it will be unjust to your demonstrators and club members to fail to report all of their real results.

Please note that all reports are to be in the offices of the State agents by January 1 of each year. This enables them to prepare their reports promptly and forward copies to the Washington office in the new year. It makes it possible to prepare reports in the United States Department of Agriculture in time for them to do the most possible good.

Do not wait until January 1 to send in your report if it is ready before that time. It should contain data to December 1. It is impossible to fully show the actual development in statistics. It is therefore suggested that you write a narrative report on separate sheets and attach same to this blank.

Send with the report a map of your county showing the number of demonstrators and cooperative agencies. It is suggested that on this map the data for girls' work be recorded in red ink, for women's work in black ink.

Write numbers of girl demonstrators in red and of women demonstrators in black, and if the demonstrators are in organized clubs enclose the figures in a circle of the corresponding color. For example: Demonstrators not in clubs, 1; demonstrators in organized clubs, 2. If both women and girls have organized clubs in one community have two circles with figures enclosed, one in black, one in red ink.

Indicate "community clubs" with a square in black ink, with membership numbers inside, as 30.

Indicate headquarters of county councils and other supporting organizations with stars, showing membership; e. g. ★

These are minimum suggestions for the map. Other details may well be reported in this graphic form, but it is expected that every agent will send at least a simple map showing the fundamental and essential data indicated.
