

Table of Contents

Chapter 1: Introduction and Literature review.....	1
1.1 Introduction.....	1
1.2 Literature Review.....	2
1.2.1 Geosynthetic Material.....	2
1.2.2 Types of Gesynthetics.....	3
1.2.3 Applications of Geosynthetic Tubes.....	4
1.2.4 Previous Research.....	5
Chapter 2: Experimental Work.....	8
2.1 Introduction.....	8
2.2 Tube Construction.....	8
2.3 Instrumentation and Measurement Procedures.....	10
2.4 Test Procedure and Results.....	16
2.5 Interface Testing.....	48
Chapter 3: Freestanding Tube.....	56
3.1 Introduction.....	56
3.2 Assumptions.....	56
3.3 Derivation.....	56
3.4 Analysis.....	58
Chapter 4: Tube With Apron Attached and Internal Pressure Remains Constant.....	60
4.1 Introduction.....	60
4.2 Assumptions.....	60
4.3 Derivation.....	60
4.4 Analysis.....	64
Chapter 5: Tube With Apron Attached and Cross-Sectional Area Remains Constant.....	70
5.1 Introduction.....	70

5.2 Assumptions.....	70
5.3 Derivation.....	70
5.3.1 Derivation of the Cross-Sectional Area of a Freestanding Tube.....	70
5.3.2 Derivation of the Cross-Sectional Area of a Tube With an Apron Attached.....	72
5.3.2.1 When $\theta_E < \theta_J < \pi/2$	72
5.3.2.2 When $\theta_E < \pi/2$ and $\theta_J > \pi/2$	74
5.3.2.3 When $\theta_J > \theta_E > \pi/2$	75
5.3.3 Derivation of Required Apron Lengths.....	76
5.4 Analysis.....	78
Chapter 6: Comparison of Analysis with FLAC Analysis and Experimental Test.....	87
6.1 Introduction.....	87
6.2 Comparison of Data.....	87
Chapter 7: Conclusions and Recommendations.....	90
7.1 Conclusions.....	90
7.1.1 Experiments on the Three-tube Configuration.....	90
7.1.2 Analysis of Tube with an Apron Attached.....	93
7.2 Recommendations for Further Research.....	93
7.2.1 Experimental Work.....	93
7.2.2 Analysis.....	94
References.....	95
Appendix A.....	97
Appendix B.....	124
Vita.....	130
