

Behavior of Magneto-Rheological Fluids Subject
to Impact and Shock Loading

by

James A. Norris

Thesis submitted to the Faculty of the
Virginia Polytechnic Institute and State University
in partial fulfillment of the requirements for the degree of

Master of Science

in

Mechanical Engineering

Approved:

Mehdi Ahmadian, Chairman

Donald Leo

Martin Johnson

June 2003
Blacksburg, Virginia

Keywords: Magnetorheological, Impact, Impulse, Active Damper,
Controllable Fluids, Shock
